

S.T.E.P.P. UP 5th Grade

(Science Testing Evaluation & Preparation Program)

SCIENCE TESTING! ARE THEY READY?

MANY OF THE TOPICS & TERMS WE COVER INCLUDE:

Big Idea: The Practice of Science

Experiment, Hypothesis, Investigation, Scientific Method, Theory & Variable

Big Idea: Earth in Space and Time

Galaxy, Gravity, MVEMJSUN(P), Solar System, Space, Star, Telescope & Universe

Big Idea: Earth Systems and Patterns

Evaporation, Condensation, Humidity, Precipitation & Water Cycle

Big Idea: Properties of Matter

Changing States, Density, Dissolve, Mass, Mixture, Solid, Liquid, Gas, Soluble, Solution & Volume

Big Idea: Changes in Matter

Chemical Change & Physical Change

Big Idea: Forces & Changes in Motion

Force, Fulcrum, Inertia & Motion

Big Idea: Energy Transfer & Transformation

Conduction, Friction & Insulators

Big Idea: Interdependence

Adaptation, Carnivore, Consumer, Decomposer, Environment, Food Chain, Herbivore, Life cycles & Omnivore

- **90-minute program, for 5th graders, that is used as a tool to assist students that struggle with vital science concepts.**

- Limited dates, book early. Program will be presented 1 - 4 weeks prior to state science testing.

- Consists of a variety of practice test questions through an animated power point presentation.

- 12 super cool science demonstrations, using Liquid Nitrogen (-320 Degrees), Dry Ice, & Dramatic Chemical Reactions are incorporated throughout the presentation.

- Wonderful technique to refresh memory, ease stressful test anxiety, & sharpen critical thinking skills.
