

REMINDER: Science Kits for sale August 28th (at science night) & August 29th – 31st (30 minutes before school, outside main office).

Hello Parents & Guardians, Super Cool Science performed at our school!

The presentation consisted of 10 amazing demonstrations using Liquid Nitrogen, Dry Ice, and many dramatic Chemical Reactions. Students are excited about science & have the opportunity to purchase science kits for a very limited time. The science kits contain simple, step-by-step directions, educational science facts, & non-toxic chemicals. The \$1 & \$3 kits are packaged in simple baggies to keep costs down.

Kids receive a Yoyo Balloon with a \$10 EXTREME JAR purchase.

Child's Name: _____

Teacher: _____

Grade: _____

My child can spend \$ _____

(Cash please, or checks made payable to Super Cool Science).

Please circle the science kit(s) that will be purchased:

\$1 Ghost Crystals - Grow 50+ nickel sized crystals that feel like Jell-O & appear invisible in water.

\$3 Sponge Powder- Pour liquid into cup that has Sponge Powder. Turn cup upside down to defy gravity. Powder instantly absorbs the liquid, creating a gel (similar to Play-Doe). Perform "trick" 5x's to amaze friends.

(Best Seller) \$10 EXTREME JAR OF FUN KIT (12 oz jar)-

Contains simple instructions + non-toxic chemicals to make 3.5 cups of SNOW, 1.5 liters of Rainbow Space Rocks & Clear Orb/Ghost Crystal Mix

+ YOYO BALLOON! (does not include Sponge Powder).
