DEATH CERTIFICATE ACKNOWLEDGEMENT FORM

Securing a death certificate is a time and labor-intensive endeavor. It not only involves the funeral home, but it requires the co-operation of your loved one's physician, hospice facility, or the local coroner's office.

It normally takes ten (10) business days from the time of receiving biographical information to the filing and obtaining of certified copies. If the death occurred outside of Montgomery County, it can take up to fifteen (15) business days. Due to other circumstances such as holidays, doctors out of the office, or any clerical mistakes on the death certificate can lead to it taking longer than ten (10) business days. If this is the case, our office will contact you with a new updated time.

If you choose to use insurance, the death certificate that comes included with the package will be issued to the insurance company. Therefore, you may need to pay for additional copies.

Your loved one's certified certificate(s) of death should be ready on _____

A funeral home representative will call you when ready for pickup.
