

List of Huguenot Refugees Surnames Matching Sephardic Jewish Surnames

Dr. Douglas Schar

What follows is a list Huguenot refugee surnames with likely Sephardic Jewish origins. After collecting over 100,000 Huguenot surnames, I compared that list with Genie Milgrom's list of known Sephardic Jewish surnames(www.GenieMilgrom.com). What follows are the names that appear both as Huguenot surnames and Sephardic Jewish surnames. This list is by no means comprehensive. There are more names to be added. And, just because a Huguenot surname can be found on a comprehensive list of Sephardic Jewish surnames, does not conclusively mean that Huguenot family was of Sephardic Jewish origins. However, there is a strong possibility.

One has to evaluate the names on this list. Some are nearly conclusively Sephardic Jewish in origin. Names like Abbadia, Astruc, and Andrade. However, other names, like Alba, Albert, and Arture, are more generic and exist in many populations. However, if your Huguenot surname appears on this list, it is worthwhile reviewing the possibility your family began in Jewish Spain.
