

- Keeping your pet safe and healthy is our top priority.

We are reaching out to let you know we are actively monitoring canine respiratory illness. While we have not experienced any known incidents at our location, we have updated and enhanced our already rigorous cleaning protocols by incorporating additional disinfection and sanitization rotations into our daily, weekly and monthly cleaning schedules. And is safe for all pets.

We have been in close contact with local Vets and the state department of Agriculture to ensure we have the most current information for the safety and health of our guests. We ask that all pets be updated on current vaccines.

Key Symptoms to monitor closely runny eyes and nose, coughing and sneezing or loss of appetite. If any of these symptoms become apparent, please keep your dog at home, contact your vet and notify us so that we can continue ensuring the well-being of your dog and that of other dog under our care.

Feel free to contact us by email or phone if you have questions or concerns regarding your pets health. Kat@tcgrooming.com 336 245 8003

Thanks , Katherine Lee
