MesoTherapy
With

Exosomes/Stem Cell

Science reveals that exosomes or stem cells with Nano-Needling or MesoTherapy can enhance skin health. These advancements diminish fine lines, wrinkles, dryness, redness, and scars while refining texture and pore size. By stimulating collagen production, they result in smoother, tighter, and rejuvenated skin.

Welcome to the world of Advanced DermaCare, Inc., where beautiful, healthy skin is our top priority. We are proud to introduce our founder and global skin care expert, Diane. With a dual degree in skincare from prestigious institutions (ITEC & CIDESCO), Diane's expertise is unmatched. She has been honored as the "International Woman of the Decade" by the European Aesthetic Skin Care Group and has received recognition and accolades in both the U.S. and Europe. Diane's passion for promoting overall wellness for a youthful complexion is evident in her extensive education. She holds a Doctorate of Naturopathy and a Ph.D. in Holistic Nutrition. Her knowledge also extends to Biofeedback, TENS, and Energetic Medicine, and she holds an international license from the IMU of Natural Education.

But Diane's impressive credentials don't stop there. She also possesses a BS-BA from Portland State University, showcasing her business acumen. She has been recognized for her leadership and success by the American Business Women's Association, earning the prestigious "Woman of the Year" title not once, but twice. Diane has also been featured in "Who's Who" by the American Bibliographer's Association since 1993 and is listed in the "Honors Edition" of the Manchester Who's Who Executive and Professional Registry for 2006/2007. In 2006, she was bestowed with the National Leadership Award from the Business Advisory Council. Diane is also a proud member of the Anti-Aging Conference since 1992.

Diane's true passion lies in discovering cutting edge methods for maintaining a youthful, radiant complexion. Join her on this journey towards achieving beautiful, healthy skin.
