

## **2025-2026 E-Learning Guidance Midlands STEM Charter School**

### **Expectations:**

During eLearning Days, all students are expected to actively engage in learning through Google Classroom and/or through the completion of academic work packets. These days are counted as official instructional days and attendance and participation are required.

### **Daily Expectations:**

- Check Google Classroom by 8:00 AM for assignments, instructions, and messages from your teachers for students in 3rd-5th grade. (K4 through 2nd grade, academic work packets will be shared with families for students to complete.)
- Check Google Classroom by 8:30 AM for block 1 and at the beginning of each block thereafter for students in 6th-12th grades. Students in 6th-12th grades do not need to check in for lunch or advisement.
- Complete and submit all assignments by the deadlines provided for each class. Assignments will be used to determine attendance and participation.
- Communicate with your teachers using Google Classroom comments, email, or other school-approved platforms if you have questions or need help.
- Follow all behavior and academic integrity policies, just as you would in the physical classroom.
- Attend any scheduled live sessions or check-ins, if assigned by your teacher. Be sure that your camera is on and that you are following directions regarding having your microphone on or muted.

Students who do not log in and complete assignments may be marked absent for the day unless prior arrangements have been made.

**TECHNOLOGY SUPPORT AND TROUBLESHOOTING:** Students and/or Staff Members experiencing login and/or technical issues, please contact the school IT Coordinator at: [rmorgan@midlandsstem.org](mailto:rmorgan@midlandsstem.org)

(If electronic work is not accessible to the student, a teacher waiver will be given and time provided to make up the assigned online tasks.)
