

SIGNS

“LG Game”

You don't need anything to play this game!

- Have your group sit or stand in a circle, but you may want to have smaller groups for the first couple of rounds.
- Give everyone a chance to choose their own unique sign, which can be a motion or movement like touching their hair, pulling an ear, or a quick wave.
- Go around the circle and have each player demonstrate their sign.
- Choose one person to start in the center as the “guesser.” Have them close their eyes while you select one person to start the game.
- Once the game starts, the first student must secretly pass the sign by making their own sign *and then* the sign of the player they'd like to pass to.
- The guesser must try and correctly guess who holds the sign. If the guesser is right, the group chooses a new guesser and plays again.
