

CARGO HOLD CHEMICAL APPLICATOR SET

SpearHead MS™

The Cargo Hold Chemical Applicator set, can reach heights up to 15 mtr, spraying the chemical to the cargo holds.

The set consists of the following:

- Chemical resistant ARO diaphragm pump 1/2"
- Air inlet hose **25 mtr**
- Chemical Suction hose **10 mtr**
- Chemical Discharge hose **50 mtr**
- Quick connectors for air, suction and discharge hoses

Our chemical applicators' pump is **made in Greece** and is fully compatible with any cargo hold cleaning chemical.

It can be used to apply hold barrier chemicals as well.
The pump is protected in stainless steel frame with carrying handle.

Everything is manufactured to be easy to use on board vessel and all components are "**plug & play**"

Telescopic lance

- Telescopic lance **8 mtr**
- Nozzles pack, **3 pcs**

Our Telescopic Pole 8mtrs is one of the lightest in the market, made of carbon fiber and it weights only **3 kgs**.
Moreover, it can be used with any HPM in the market up to **500 bar**.
Additional accessories can be also offered upon request, i.e. **Turbonozzle / Flat Fan Nozzle / Brush / Belt**.

It is able to spray at 15mtrs height with minimal chemical consumption at around 13 LPM
