BRADENTON, Florida - Tonight the School Board of Manatee County held yet another farce meeting with the feckless five that are a disgrace to the teachers and students of Manatee County. They fear the public knowing the truth so much that they didn't even broadcast the meeting live and claimed "technical difficulties". The only technical difficulty is the five board members that are afraid of the community and don't know how to handle it when the community speaks up and out against injustice and inequality. They started the meeting off with the removal of Rodney Jones for no other reason than hatred and fear. This so called board continues to employ a Superintendent that has become a sickness to the School District and made a mockery of education with her felonious acts and disgraceful behavior. When Mr. Salazar spoke once again he was met with complete disrespect from Dave "Watchdog" Miner who continuously rolled his eyes and huffed. "It's a damn shame that money is being taken away from our childrens' education in order to pay legal bills that Cynthia Saunders continues to rack up in Manatee County. It is beyond time for Mrs. Saunders to resign or be fired. I believe in chances but this board has given one too many chances at the expense of our students." Eleuterio Salazar said. Additionally, let's address the disrespect that James T. Golden is showing our county by showing up with a clergy collar on. "Mr. Golden the US Constitution is clear in the separation of Church and State and you sir are not at church when representing the School Board of Manatee County so please act accordingly on the dias." Salazar continued. The community is tired of the disrespect at the hands of this board and will not go away until a new board is in place and Cynthia Saunders is nothing more than a long lost past nightmare for Manatee County. Finally, it should be noted that our opponent was at the meeting but didn't care enough to speak up and speak out against injustice and inequality. He simply sat quietly and allowed injustice to continue.
