TOGETHER WE CAN RESTRUCTURE THE FOSTER SYSTEM IN AMERICA

Reading time: <30 seconds>

The rigorous process of the foster system often leaves children homeless, in prison or victim to sex trafficking.

Something must change in order for us to give children a healthy environment to grow up in.

According to the Adoption Network, there are over 400,000 children currently in the foster care system with roughly one to two million families currently trying to adopt.

Speak to your local officials today to save a child's life.
