INTRODUCTION

A DECADE OF IDEAS 2015–2026

Ten years of imagination, bold moves, and building brands that live in people's minds. From Cairo to Riyadh and Dubai, Idea Network began as a creative force — and evolved into a regional powerhouse, crafting identities, campaigns, and stories that move markets and shape culture.

Every project in this book reflects our belief: great brands are born from brave ideas. This is not just our portfolio — it's our journey of creativity, collaboration, and impact

NATURAL BALANCE
BLX
ENDURING PROTECTION

NATURAL BALANCE

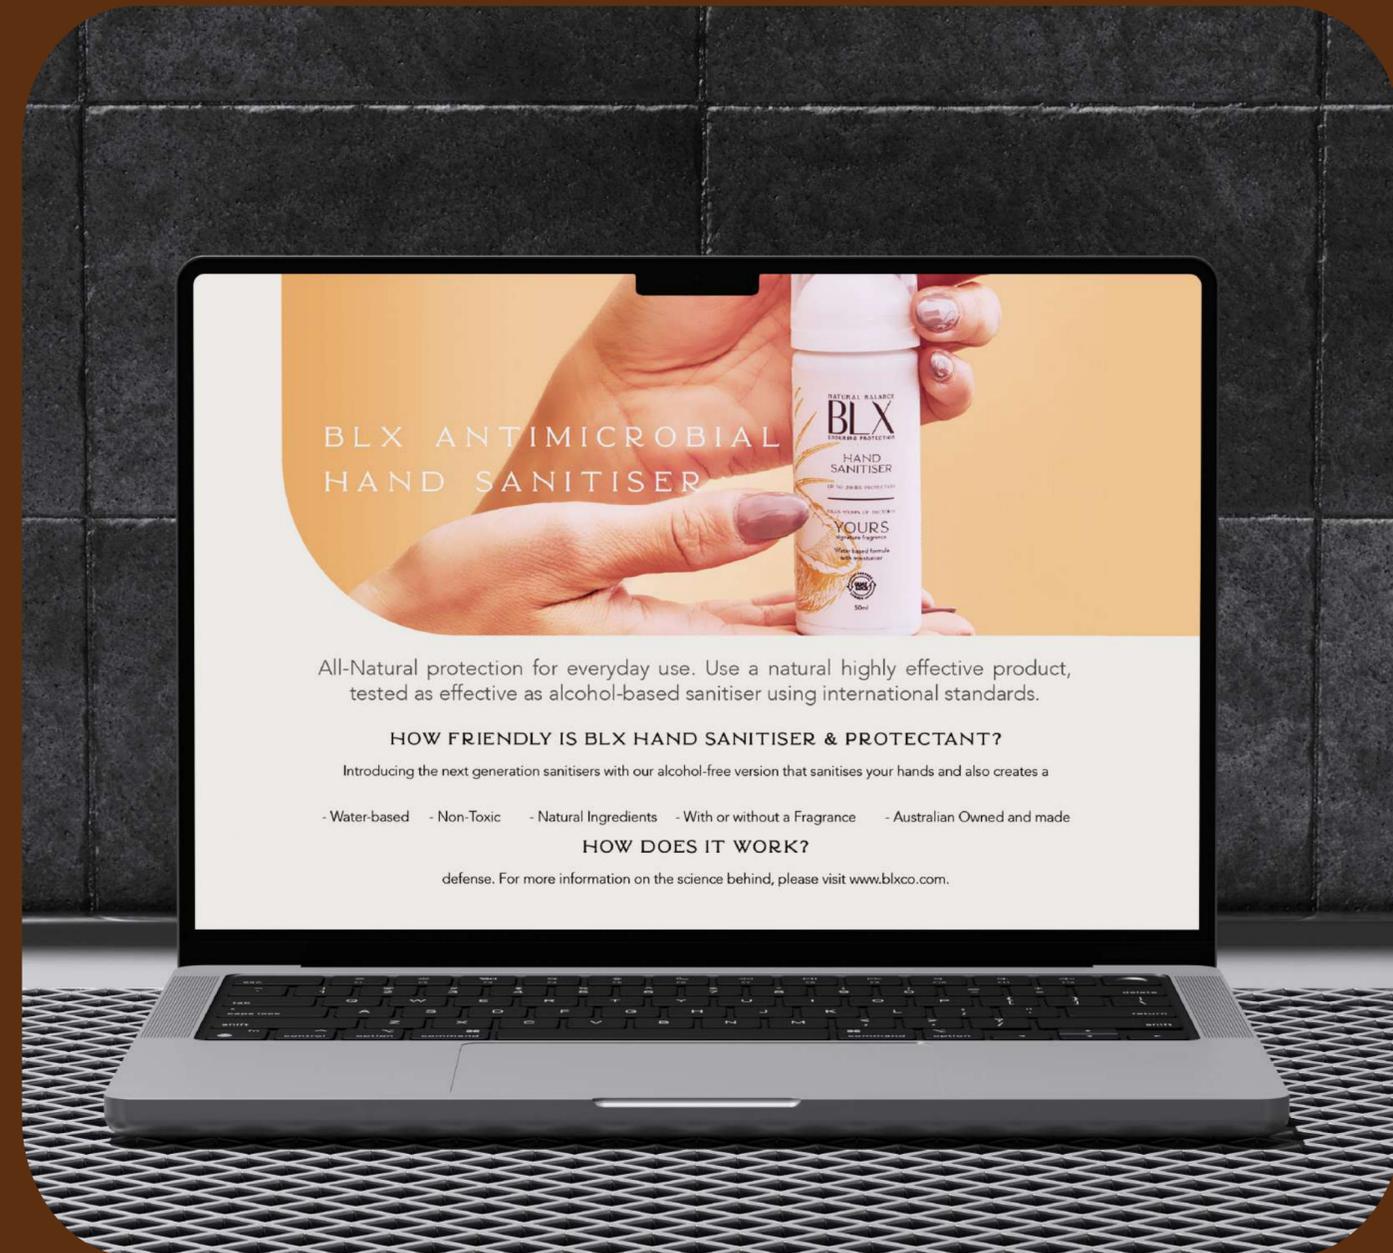

BLX is a hygiene product that targets wide range of people
who care about their health and to keep everything clean

BRANDING & PACKAGING

Color Palette: ● ● ● ●

COMPANY PROFILE

our products

Advanced antimicrobial defense
for your hands

BLX Hand Sanitiser & Protectant provides long term antimicrobial defence — it kills
— it kills
dries to form a microscopic protective barrier that continues to destroy bacteria for long lasting protection and peace of mind.

Most sanitisers evaporate within a short period of time, leaving hands vulnerable to recontamination. BLX Hand Sanitiser and Protectant is a two-in-one solution. It sanitises hands and then remains bonded to create a protective shield that continues to defend against bacterial attack.

Rather than poisoning microbes by using alcohol or harsh chemicals BLX Hand Sanitiser & Protectant uses a small electrostatic charge to kill microorganisms, making it suitable for use in childcare, education, commercial and domestic environments. The non-alcohol formulation will not dry, crack or damage your hands. Even after multiple applications, hands remain protected, soft and smooth.
BLX Hand Sanitiser & Protectant is friendly for humans. It is rapidly degrading and breaks down to form simple organic compounds — reducing the potential for negative environmental impacts.

How do you use BLX Hand Sanitiser & Protectant?

- 01 Hands should be clean and dry before applying foam. Apply foam to both hands and ensure hands are thoroughly covered.
- 02 Allow hands to air-dry. Once dry, the antibacterial active is locked onto your hands.
- 03 Your hands will now be defended against bacterial contamination for up to 24hrs, assuming typical daily activity. For optimum performance, reapply after hand washing, or if hands become soiled

How does it work?

BLX Hand Sanitiser & Protectant uses Quatlock™ technology to bond the active antimicrobial to hands for long-lasting defense. For more information on the science behind BLX, please visit www.blxco.com

Ideal for use within:

Hospitality: Restaurants & Cafes Education: Childcare, Schools, Universities Public Transport: Buses, Trains, Trams Retail Spaces: Counters, Touchpoints Lifestyle Environments: Gyms & Fitness Homes: Furniture, Floors, Fixtures Vehicles: Cars, Vans, Trucks

BLX Antimicrobial Hand Sanitiser

All-Natural protection for everyday use. Use a natural highly effective product, tested as effective as alcohol-based sanitiser using international standards.

BLX Antimicrobial Surface Disinfectant and Sanitiser

Effective surface disinfectant & durable self-sanitizing formula. Rapid kill of bacteria and viruses, ongoing protection against germs for up to 30 days

How friendly is BLX Hand Sanitiser & Protectant?

Looking for long-lasting, professional-grade protection for your home and loved ones? Our easy to use, Surface Disinfectant cleans and keeps bacteria at bay by creating a self-sanitising surface.

- Water-based
- Non-Toxic
- Natural Ingredients
- With or without a Fragrance
- Australian Owned and made

How does it work?

Our antimicrobial surface disinfectant and sanitiser uses Quatlock technology to bond the active antimicrobial to most surfaces for long-lasting defense. For more information on the science behind, please visit www.blxco.com.

How do you use BLX Hand Sanitiser & Protectant?

- 01 Hands should be clean and dry before applying foam. Apply foam to both hands and ensure hands are thoroughly covered.
- 02 Allow hands to air-dry. Once dry, the antibacterial active is locked onto your hands.
- 03 Your hands will now be defended against bacterial contamination for up to 12hrs, assuming typical daily activity. For optimum performance, reapply after hand washing, or if hands become soiled
