Please fax all work lists to the above email address.

This is being done in an effort to protect work being performed by yard and industrial crews. Should a reduction in assignments occur this information will be vital in the Grievance Process. Without this information we may be unable to protect our work. The key to success in this matter will be a proactive approach, and as such it will depend on the membership doing their part. We are attempting to make this as easy as possible for the membership.
