

BULLETIN INFORMATION

DATE:	April 24, 2020	TYPE:	Information	NUMBER:	LR-005-20
SUBJECT:	IP System Implementation – Calgary & Winnipeg				

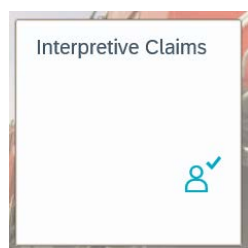

DETAILS

Attention: T&E Employees at Calgary and Winnipeg

Please be advised that effective April 30, 2020, CP will be launching the IP System for the processing of IP (Interpretive) Claims at Calgary and Winnipeg Terminals.

Remaining terminals will follow beginning in June 2020. Specific dates will be announced in subsequent information bulletins.

Once implemented, IP (interpretive) claims may only be submitted via the IP System portal which can be accessed on Employee Station:

The new IP System has several benefits:

- Easy to Use
- Has an added option to attach files and link to existing claim events in CMA
- Has functionality to allow the Audit Specialist to request more information without declining the claim.
- Gives employees enhanced visibility of the status of their claims
- Eliminates the previous CMA character restriction limit for remarks on IP claims.

A simple IP System User Guide is available on CP Station as follows:

<https://teams.cpr.ca/IndustrialRelations/IP%20System/Forms/AllItems.aspx>

Link to the IP System:
