In this example the RLVD RESP DATE-TIME entered will relate to Station 06008 i.e. where this crew was relieved:

- B) Employee Remarks must be added. Include:
 - a. Station Name where you were relieved, where you began work (or both)
 - b. Station Name where you were turned (in the case of working both ways) followed by
 - c. Specific mileage point(s) relating to the indicated Stations Names
 - d. Mode of transportation utilized

See below:

Examples of Employee Remarks in correct format i.e. first cite the **<Event Type>** (RLVD, Work Began, Turned) followed by **<Location Name>** followed by a hyphen followed by **<Mileage Point of Location>** followed by **<Mode of Transportation>** (when applicable).

Example 1: RLVD Indian Head-mile 61.3 Hallcon Taxi

Example 2: Work Began Indian Head-mile 61.3 Hallcon Taxi

Example 3: Work Began Indian Head-mile 61.3 RLVD Sintaluta-mile 38.3 Trainmaster Smith

Example 4: Turned Indian Head-mile 61.3

Note: in the case of example #4, the crew worked in both directions to and from the turn point, therefore, there is no WORK BEGAN or RLVD RESP time.

D) Run Miles field must be updated on Secondary Tie-Up Screen to reflect actual miles operating your train.
