

GET YOUR HOME IN FRONT

of the right people, fast.

CORE PropertyBoost creates a Facebook ad campaign for your home that targets potential buyers based on location and search behavior. That means your property is getting in front of thousands of people in your area looking for a home just like yours.

And, whenever someone clicks on the ad, CORE PropertyBoost collects their contact information so I can immediately follow up with serious buyers. The campaign runs anywhere from 1 to 5 weeks and I will update you throughout the process.

Let's talk about how we can fit CORE PropertyBoost into your marketing strategy.
