

Anti Drugs Cell
Annual Report 2020-21

Activities conducted during the academic year are conducted in online platform only. The details of the same are given below:

Awareness programme

in connection with

International Anti Drugs Day 2020

Anti drugs cell of the college has observed anti drugs day and an awareness video against the use of drugs is created by the students the script for the video was written by Sarala K T and students from their home recorded the video. The videos send by each student is incorporated to a single video and circulated among various social Medias. The programme helped to make aware the students and public about the danger of using drugs.

World No Tobacco Day Campaign

31 May 2021

Anti Drugs Cell of AMC Group of Educational Institution observed world no tobacco day. The cell with the help of teachers and students of college motivated the students to participate in the 'I Pledge to Quit' campaign of World Health Organization. The link to take the pledge is circulated among the whatsapp groups of all classes and students are asked to take the pledge. Class teachers of all classes ensured the students pledged. The students and teachers also motivated their friends and relatives to take the pledge through the social media which is the only media to communicate with society during the covid pandemic period. Student co-ordinators Vineesh and Ajithya actively promoted the programme.
