

Soft Touch® Bases

T Series Soft Touch® for Turf

Soft Touch® bases are molded from durable cut resistant polyurethane. Made in the USA, our bases are designed to flex and absorb as a player slides into base. When enough force is applied, as in the case of uncontrolled slides, the base will release from the turf - minimizing the potential for player injuries. Proven over 20 years of play, Soft Touch® bases outperform standard bases and are fully warranted against failure due to defective materials for one full year.

Product Information

Soft Touch® for Turf is designed for use on synthetic playing fields. Our unique design requires no mounting system and sits securely on the synthetic turf. Easy to install, Soft Touch® for Turf can remain in-ground year round or set up for game-time.

15" x 15" x 2 1/2"
Soft Touch® Order #: T1500

ORDER NUMBER	DESCRIPTION	IMAGES
T1500	3 - 15" bases	
T15	1 - 15" base	

MADE IN THE USA

Warning: Sliding into a base represents a clear danger. All players must be advised of this hazard and properly trained in sliding technique.
