

Soft Touch® Bases

Progressive Release

IN Series Indoor Bases

Soft Touch "Progressive Release" bases are molded from durable cut resistant polyurethane. Made in the USA, all of our bases are designed to flex and absorb energy as a player slides into the base. In the case of uncontrolled slides, the "Progressive Release" action allows the base to flex until enough force is applied to "pop" the base free from the mount, unlike any stationary base. Proven over 15 years of play, "Progressive Release" bases out-perform standard bases. Soft Touch bases are fully warranted against failure due to defective materials for one full year.

Practice all year round with Soft Touch Indoor bases! The revolutionary suction cup mounting system applies to any smooth practice surface, providing Soft Touch quality and safety without the hassle of seasonal weather. The exclusive "Progressive Release" design provides the best in safety technology. These bases allow teams to practice indoors just as hard and safely as outside.

15" base with indoor mounting tee
Soft Touch Order #: IN1500

ORDER NUMBER	DESCRIPTION	IMAGES
IN1500	3 - 15" bases 3 - indoor mounting tees	
IN15	1 - 15" indoor base 1 - indoor mounting tee	
IN1415M	1 - indoor mounting tee	

MADE IN THE USA

Warning: Sliding into a base represents a clear danger. All players must be advised of this hazard and properly trained in sliding technique.
