

Microtraining Chat Session

How this works. So you have a small issue with your dog. You video the issue and what is going on around you and your dog. Then you send me the video and the payment to my Venmo account. After I received the payment and video, I will watch the video and send you my advice on how to proceed to correct the issue. You can respond with questions pertaining to the video and advice given.

If you have another issue send another video and payment and we will proceed as stated above.

We can either communicate by facebook messenger or email.

Send your payment to: <https://venmo.com/u/UnleashedPawtentialll>

- A. 1-3 minute video with advice \$10
- B. 4-6 min video with advice \$12
- C. 7-10 min video with advice \$15

If the issue is more complicated than Microtraining Chat Session and you decide to upgrade to one on one trainings. Then the amount you spent on the Microtraining Chat session will be deducted from the one on one trainings.
