Experience

Huck Institutes of the Life Sciences, Penn State University
University Park, Pennsylvania, United States
Frontend Developer
April 2020–Present

I build the user-facing side of huck.psu.edu by combining design, code, and interactivity to create seamless accessible and responsive digital experiences. As a member of the Communications Team, I design print materials, create digital assets, and write SciArt stories for PSU News and Huck social media.

South Hills School of Business & Technology
State College, Pennsylvania, United States
IT Support Specialist > Webmaster > Consultant
October 2008–December 2021

Woodcraft Industries, Inc.
Bellefonte, Pennsylvania, United States
IT Intern > Team Member > Team Lead

✧ User Interface/User Experience Design

✧ Digital Content Design

✧ Print Materials Design

✧ Advanced Photo Editing

✧ DSLR Photography

✧ Writing, Communications, Social Media

✧ Marketing for Higher Education

Personal Profile

I am a multidisciplinary web developer, designer, and digital marketing professional with a strong foundation in information technology. I specialize in blending technical precision with creative strategy to craft engaging, user-focused digital experiences.

As an experienced graphic designer and event photographer, I bring a sharp eye for detail and a talent for visual storytelling across mediums. Since 2018, I've thrived in remote work environments, consistently demonstrating adaptability, self-discipline, and strong communication skills to collaborate effectively across distributed teams.

Outside of work, I enjoy exploring the outdoors with my dog, traveling and discovering new places both locally and beyond, and experimenting in the kitchen—primarily with baking.
