## 1.0 Background

The Environment Protection (End-of-Life Vehicles) Rules, 2025 were notified under the Environment (Protection) Act, 1986 vide notification dated 06 January 2025, for implementation of the Extended Producer Responsibility (EPR) framework for End-of-Life Vehicles (ELVs) management. The said Rules came into force with effect from 01 April 2025.

As per the provisions of the said rules, CPCB has developed an online portal for implementation of the EPR framework for ELVs. The said portal will facilitate the registration of all entities (Producer/ Registered Vehicle Scrapping Facility (RVSFs)/ Bulk Consumer); generation & transaction of EPR certificates; filing of quarterly & annual returns and submitting other required information by entities.

Further, as per the responsibilities outlined under the said rules, every producer has to fulfill the EPR Obligation by purchasing EPR certificates from registered RVSFs through centralized EPR ELV portal developed by CPCB.

This document provides guidance for the registration and filing of applications by Producers, as defined under the said rules, and for the processing of such applications.

As per above said rules, "Producer" means an entity who is engaged in:

- i. manufacture or assembly and sale of vehicles under its own brand; or
- ii. sale of vehicles under its own brand produced by other manufacturers or suppliers; or
- iii. import of vehicles.

## 2.0 Guidance for filling of Applications by Producers

The producers are required to initiate the application process by signing up on the web portal <https://eprelv.cpcb.gov.in> followed by filling out the registration form, which consists of five (05) parts, namely: (i) General Details, (ii) Manufacturing and Assembly Details, (iii) Procurement and Sales Data, (iv) Annual Turnover and Declaration and (v) Payment of Fee.
