

Dear members of Victoria police, and ADF personnel,

To give you some context for what follows: I'm a law-abiding citizen. I help out my neighbours when they're in need. I've volunteered at a women's shelter, the animal aid, and internationally at an orphanage in East Timor. I spent a decade as a primary school music teacher, before becoming a home-schooling mother. My daughter is fully vaccinated, and I believe in being accountable to God. Put simply, I'm an ordinary person, and I am genuinely respectful of your earned and noble position, as officers of the law.

I'm aware that as members of Victoria police (or ADF) you are *not allowed* to have an opinion about the current measures in place. However, you must remember that "*I was just following orders*", didn't cut it in the Nuremburg trials. Do you know there are currently thousands of international lawyers working on what they are calling: The Nuremburg 2 trials? It might not feel like it, on our often quiet streets, but there are billions of people worldwide ready to stand up, and fight HARD for what is right. Hundreds of thousand are uniting now in Australia, and that will soon spark into millions as the masses wake up. It's a pivotal moment in history we're coming to... and you must decide which side you're on. I implore you to choose what is RIGHT, regardless of your position, and any perceived personal cost.

Do you know the CDC is currently proposing a shielding approach: where 'high-risk' individuals are made to "swap houses" within their neighbourhood, so as to all be grouped 'safely' together? The next step after that, which the CDC is also recommending is isolation CAMPS for 'high-risk' individuals. They say they will hold people there, including children (against their will) for at least 6 months... while they flatten the curve. We are into day 200+ of *14 days to flatten the curve*, so we have good reason to question any proposed timeframe. Look up GREENZONES on their website to read all about it.

**Sadly, too many people have never read a history book. Hitler didn't *start* with gas chambers, but we all know how it ended. This is not about our health and wellbeing. COVID 19 is a disease so deadly that most people catch it and mistake it for a mild seasonal cold.**

**Further to that, thousands of doctors have come out to say there are CURES for COVID, and that no-one needs to die *from* it, although some may still die *with* it. But those cures have been systematically quashed by unelected (unhealthy looking!) 'health' dictators, worldwide.**

**The CDCs definition of 'vaccinated' is being used to grossly mislead the public. Our hospitals are full of those who've had the jab... and overwhelmed because doctors and nurses are leaving in their droves as these shots become mandatory in the health sector. The facts show that 'case numbers' and death rates (across all ages) have RISEN in every country FOLLOWING the roll out of these jabs. Nobel prize winner Luc Montagnier said many months ago that the 'vaccine' will CREATE new variants, and now we are seeing that come to pass.**

**The death toll from these ongoing lock downs by FAR exceeds the expected death toll from this disease. For proof of that, see [www.pandata.com](http://www.pandata.com) or listen to hundreds of BANNED Australian medical experts, which you'll find on the website below. With all due respect, you really need to understand the gravity of the situation we face. Please do some independent research (aka NOT GOOGLE) into this so-called 'vaccine'. It's not a vaccine. It is undoubtedly a de-population plan, and if it continues unhalting, it will be THE WORST crime ever committed, against humanity. [www.covidvaccinedeaths.org](http://www.covidvaccinedeaths.org) is a good place to start researching, the 5-minute overview video lists many good resources. Please, please look into it. We need your help. Thank you kindly for your time.**

**Sincerely, Arianne Lee. (Concerned citizen)**
