

Company Profile: Ojaskara (SL) Limited

Leading the Future of Industrial Mining in Sierra Leone

About Us

Founded with a vision to harness the vast mineral wealth of Sierra Leone, Ojaskara (SL) Limited, stands as a premier mining company specializing in the extraction of high-value industrial metals. With our headquarters strategically located in Sierra Leone, we are committed to responsible and efficient mining practices that contribute to the economic development of the local region and the broader global market.

Our company operates under a large-scale mining license granted by the local government, a testament to our compliance with regulatory standards and our dedication to sustainable growth. This license empowers us to extract and process a diverse portfolio of industrial metals, reinforcing our position as a key player in the mining sector.

Our Mission

At Ojaskara (SL) Limited, our mission is to deliver exceptional value to our stakeholders by responsibly extracting and supplying essential industrial metals. We strive to foster long-term partnerships with local communities, government authorities, and international clients, ensuring that the benefits of our operations are shared widely and equitably.

Our Vision

To become the leading mining enterprise in Sierra Leone and West Africa, recognized for our commitment to ethical practices, operational excellence, and environmental stewardship.

Core Values

- **Integrity:** We adhere to the highest standards of honesty and transparency in all aspects of our business.
- **Excellence:** Our pursuit of excellence drives us to adopt innovative mining methods and maintain rigorous safety standards.
- **Sustainability:** We are dedicated to minimizing our environmental footprint and supporting community development initiatives.

- Collaboration: We believe in building strong relationships with stakeholders and working cooperatively to achieve mutual success.

Our Mining Operations

With our large-scale mining license, Ojaskara (SL) Limited is fully authorized to extract a range of valuable industrial metals. Our mining operations utilize advanced technology and adhere to international best practices to ensure optimal yields and the highest quality ore.

Our Core Industrial Metals

- Aluminum Bauxite: Bauxite is the primary source of aluminum, a lightweight and versatile metal critical for industries such as aerospace, automotive, construction, and packaging. Our bauxite extraction process is designed for maximum efficiency while preserving the surrounding ecosystem.
- Gold: Renowned for its value and rarity, gold remains a cornerstone of global finance and manufacturing. We extract gold using both traditional and modern techniques, ensuring purity and responsible resource management.
- Silver: Silver plays a vital role in electronics, jewelry, and industrial applications. Our mining methods allow for the efficient recovery of high-grade silver, meeting the needs of diverse markets.
- Copper: Essential for electrical wiring, plumbing, and industrial machinery, copper is in high demand worldwide. Our operations are geared to provide a consistent supply of this critical metal, contributing to technological advancement across industries.
- Coltan: A key source of tantalum, coltan is indispensable for the production of electronic components such as capacitors and high-performance alloys. We maintain strict ethical sourcing standards to ensure our coltan is conflict-free and responsibly mined.
- Tungsten: Known for its strength and resistance to heat, tungsten is used in applications ranging from light bulb filaments to specialized military equipment. Our extraction techniques are focused on delivering tungsten of the highest purity.
- Titanium: With remarkable corrosion resistance and strength-to-weight ratio, titanium is essential for aerospace, medical, and industrial uses. Our company employs state-of-the-art processing to unlock the full potential of Sierra Leone's titanium reserves.

Commitment to Sustainability

We understand that mining has a significant impact on the environment and local communities. Ojaskara (SL) Limited is dedicated to reducing this impact through progressive sustainability initiatives, including:

- Implementing land rehabilitation and reforestation programs
- Using water conservation and recycling systems in our operations
- Minimizing emissions through the adoption of clean technologies
- Regularly monitoring and reporting our environmental performance
- Engaging with local communities to ensure their voices are heard and their needs addressed

Our goal is to leave a positive legacy for future generations while providing the resources essential for global progress.

Community Engagement

Ojaskara (SL) Limited believes that the success of our mining operations is intrinsically linked to the well-being of the communities in which we operate. We invest in local education, healthcare, and infrastructure projects, and prioritize the employment of local talent. Through partnerships with community leaders and organizations, we strive to create shared value and lasting impact.

Health and Safety

Safety is at the forefront of our operational philosophy. We maintain rigorous health and safety protocols to protect our employees, contractors, and the surrounding community. Regular training, advanced equipment, and strict oversight ensure a workplace culture where everyone is empowered to prevent accidents and promote wellness.

Compliance and Regulatory Standards

Operating under a large-scale mining license, Ojaskara (SL) Limited abides by all regulations set forth by the government of Sierra Leone and international mining standards. We are committed to transparency in all our dealings and regularly undergo third-party audits to validate our compliance with industry best practices.

Our Team

Our management team comprises experienced professionals with deep expertise in geology, engineering, environmental science, and business management. Together, we bring a holistic approach to mining, balancing operational excellence with social and environmental responsibility.

Why Choose Ojaskara (SL) Limited

- A government-approved large-scale mining license ensuring legal and ethical operations
- Diversified portfolio of high-demand industrial metals
- Advanced mining technology and sustainable practices
- Strong community engagement and local partnerships
- Commitment to environmental stewardship and regulatory compliance
