

Get Your **Tool** Back in **Production** in Days – Not Months

RapidTransfer™ PROGRAM

Fast Tool Transfers. Fast PPAP. Fast Recovery.

When production is at risk, time matters. Serv-All's **RapidTransfer™** Program is designed to quickly and cost-effectively transfer your existing die casting tools and restore stable production with minimal downtime.

Our experienced engineering, tooling, and production teams specialize in fast tool onboarding, rapid PPAP approval, and immediate production recovery.

WHAT WE DELIVER

- ✓ **Fast Tool Evaluation & Launch**
Immediate tool inspection, setup, and readiness planning upon arrival.
- ✓ **Rapid PPAP Approval**
Streamlined validation process to quickly meet your quality and documentation requirements.
- ✓ **Production Recovery in Days**
Our goal is simple: stabilize your tooling and restore production as fast as possible.
- ✓ **Cost-Effective Startup**
Lean manufacturing processes ensure competitive piece pricing without costly delays.

IDEAL SITUATIONS for RapidTransfer™

- ✓ Current supplier experiencing quality issues
- ✓ Delivery delays or missed shipments
- ✓ Rising piece price or unfavorable commercial terms
- ✓ Supplier capacity / inventory constraints
- ✓ Tooling relocation due to plant closures or consolidation

Why Customers Choose Serv-All for Tool Transfers
