Kodiak Moon Capital & Energy Solutions Environmental Sustainability and Growth Commitment

At Kodiak Moon Capital & Energy Solutions, our unwavering dedication to environmental sustainability is fortified by a robust track record and a commitment to driving substantial growth in the renewable energy sector. Since our inception in 2007, we have consistently been at the forefront, disrupting the status quo and actively fostering the renewable energy transition.

Having played a pivotal role in over 2 GW and \$2.2 billion worth of renewable energy projects globally, our journey exemplifies a legacy of success and a profound impact on shaping a sustainable future. It is this proven track record that propels us forward, instilling confidence in our ability to navigate the complex landscape of environmental stewardship and renewable energy development.

Our Pledge:

1. Carbon Neutrality:

Strive for carbon neutrality across all our operations, implementing sustainable practices and embracing innovative technologies that minimize our carbon footprint.

2. Renewable Energy Advocacy:

Advocate for and actively contribute to the widespread adoption of renewable energy sources, aiming to reduce our dependence on non-renewable alternatives and accelerate the global transition to sustainable energy.

3. Sustainable Project Development:

Prioritize sustainability in every facet of project development, ensuring that our initiatives not only meet the highest environmental standards but also contribute positively to the communities in which we operate.

4. Resource Efficiency:

Optimize resource usage, reduce waste, and promote a circular economy within our organization and projects to enhance overall efficiency and environmental stewardship.

5. Land and Resource Preservation:

Actively engage in efforts to protect and conserve land and natural resources, recognizing their pivotal role in maintaining ecological balance and resilience.

6. Stakeholder Collaboration:

Collaborate with developers, business owners, capital partners, and local communities to foster environmental awareness, education, and initiatives, creating a collective impact towards a healthier planet.

7. Transparency and Accountability:

Maintain transparency in our environmental practices, regularly assess our impact, and remain accountable for continuous improvement through measurable goals, reporting our progress to stakeholders.

8. Innovation in Green Technologies:

Invest in and support the development and deployment of cutting-edge green technologies that contribute to a more sustainable and resilient energy future.

9. Employee Engagement:

Foster a culture of environmental responsibility among our employees, encouraging their active participation in sustainable practices at work and in their personal lives.

10. Catalyzing Renewable Energy Growth:

Commit to supporting developers, business owners, and capital partners in deploying over 2 GW of renewable energy projects annually and providing access to over \$2 billion of renewable energy capital each year for the next 10 years.

Through this steadfast and comprehensive commitment, Kodiak Moon Capital & Energy Solutions aspires not only to set the standard as a leader in environmental sustainability but also to be the propelling force igniting unprecedented momentum in the renewable energy sector. Our unwavering dedication, coupled with a rich legacy of successful endeavors, positions us at the forefront of ushering in a cleaner, more sustainable future. Join us as we chart the course toward a world where sustainable energy is not just a goal but an everyday reality. Together, let's illuminate the path to a brighter and greener tomorrow.

Bright Wishes into the Future,

Edmund Kerry Davis
