The BA Design syllabus at Goldsmiths is uniquely interdisciplinary, exploring many design disciplines, encompassing graphic, media, and product design. As a recent graduate, I'm excited to cement myself as a key contributor and vital team member within a creative company.

I have a strong work ethic, as demonstrated through my achievements in the exceptionally competitive IB program, as well as a deep fascination for design and how it can influence society and the world around us.

Experience

Marketing Intern Software AG	A full time role with various responsibilities, including creation, construction, and design of a marketing demo, as well as working with marketo and salesforces.	06/18 - 07/18
