

BLS & ILS Ongoing Training & Evaluation Program 2020-2022

Overview

Whatcom County Emergency Medical Service (EMS) agencies agree to implement the Ongoing Training and Evaluation Program (OTEP) model as outlined in WAC 246-976-163 and 246-976-171. The details within this document shows how WCEMS will meet the requirements. Oversight of Whatcom County Emergency Medical Services (WCEMS) is the responsibility of the WCEMS Manager employed by Whatcom County. EMS Education is the responsibility of the Whatcom County EMS and Trauma Care Council (WCEMS-TCC), the Whatcom County Training Coordinator (WCTC) or designee, department Supervising Physicians and the County Medical Program Director (MPD).

Each quarter will consist of didactic lessons delivered through EMSconnect provided online and other local content as directed by the MPD. Each participating agency will subscribe to EMSconnect and train their providers how to navigate the online platform to access assigned topics. Lessons may be taught in person and all didactic lessons will have a knowledge evaluation component as per WAC 246-976-163. Psychomotor evaluations will be provided onsite by Whatcom County / Washington State DOH approved EMS Evaluators (EMEs).

Run reviews and feedback to EMS responders will be provided through the ImageTrend reporting platform by the MPD, supervising physician(s) or other individuals qualified and designated to manage quality assurance and improvement at individual agencies.

On site practical skills and evaluations will be provided by individual agencies through Washington State DOH approved EMS Evaluators. Practical scenarios and skills performance criteria will be provided through the Whatcom County EMS and Trauma Council to ensure standardized content and consistent instruction throughout the county.

Curriculum, Evaluation and Documentation

In person and online lesson content and objectives will be designed to fulfill curricula approved by the Washington State Department of Health *Education Requirements for the Recertification of EMS Personnel and OTEP Development* document (DOH 530-234 April 2019).

Whatcom County EMS Agencies will use the most current version of Washington State Department of Health EMT practical evaluation skills sheets, NREMT practical skills sheets, or sheets approved by the WCEMS-TCC and County MPD.

Following each online didactic lesson providers will complete a cognitive evaluation of the lesson material with a minimum passing score of 80%.

Practical application scenarios and skills evaluation may only be delivered after a provider has successfully completed the online didactic quarterly training.

All evaluation scores will be recorded on an approved tracking form in either paper or electronic format.

AEMT (Advanced EMT)

AEMTs shall complete additional training modules through EMSconnect or in person training in topic areas as designated by the County Training Coordinator or agency training officer, as approved by the MPD, to meet the sixty (60) hour training cycle requirements. AEMTs will also successfully complete and document all required skills qualifications as outlined in WAC 246-976-171.

Quality Improvement

WCEMS and WCEMS-TCC will monitor instructors and provide EMS evaluator workshops to ensure quality instruction and evaluation of OTEP participants. In addition the MPD or County EMS Training Coordinator will periodically audit training sessions.

Feedback from quarterly County Continuing Quality Improvement (CQI) committee meetings will also be used to identify system training or performance deficits and strengths.

WCEMS and WCEMS-TCC will monitor EMS provider progress and compliance with OTEP requirements and work together with participating agencies to identify and correct training discrepancies.

Remediation Plan

Any provider failing a practical scenario or skills station will be provided 2 additional attempts to complete the scenario or skill successfully. Remediation will be provided between unsuccessful attempts at any scenario or skill.

If a provider fails three (3) successive attempts performing a scenario or skill the provider will receive further didactic instruction. All failures, remediation and subsequent passing of a skill or scenario will be documented by the responsible home agency and remain with the EMS training record of the individual provider.

All providers shall maintain didactic and psychomotor sessions within the quarter they are assigned. In the case a provider misses or fails to complete a didactic or psychomotor session within any quarter the didactic module or skill session must be made up within the following quarter that it was assigned.

If a provider misses three (3) didactic or psychomotor sessions consecutively without attempts at "make up", the provider will be moved from the OTEP model to the traditional CME method of recertification (WAC 246-976-162 and 246-976-171).

In the event that a provider is absent from duty for an extended period of time due to illness, military status, injury, leave of absence or other extenuating circumstance, the EMS agency will remove that provider from providing patient care and provide the individual with a remediation plan that will be administered by the affiliated EMS agency training officer and be approved by WCEMS-TCC and the MPD. Remediation plans for such absences will include any topics that were missed by a provider on leave and skills competency verification on any missed topics. After successful remediation the affiliated EMS agency training officer will place the provider back onto the OTEP plan. As a last resort for remediation a responder may be placed on the traditional CME method of recertification.

Personnel Transfer

When new EMS providers transfer affiliation from another county to a WCEMS agency they will be required to provide WCEMSTCC and the affiliate agency with documentation of all EMS continuing education they have completed for their current certification cycle. WCEMSTCC and the MPD will assign any make-up or remediation needed prior to placing the provider on the WCEMS OTEP plan. If a provider is significantly deficient of acceptable continuing education requirements the provider may be placed on the traditional CME method of recertification for that recertification cycle. All new providers will be expected to prove competency and acknowledge receipt of WCEMS protocols.

Recertification

Individual EMS providers are responsible for reviewing and maintaining records for their certification period. Agency training officers, WCEMS-TCC and the County MPD are responsible for final review of all recertification materials for affiliated providers. All documentation for recertification will be forwarded to the WCEMS-TCC office for processing. WCEMS-TCC will perform a records verification of each provider prior to recertification to ensure consistency with WAC 246-976-161 before approving the provider's application.

ParticipatingAgencies

The following agencies will be participating in OTEP training in Whatcom County:

37I02-Alcoa Intalco Works
37I01-BP Cherry Point Refinery
37X02-Cascade Ambulance Service
37L03-Customs and Boarder Protection-Blain Sector
37I03-Ferndale Refinery Emergency Response
37D19-Glacier Fire and Rescue
37M07-Lynden Fire Department
37D21-North Whatcom Fire and Rescue
37D20-South Whatcom Fire Authority
37D01-Whatcom County Fire District #1
37D17-Whatcom County Fire District # 17
37D11-Whatcom County Fire District # 11
37D14-Whatcom County Fire District # 14
