

SYLFIRM X

EMERGING DUAL WAVE RF MICRO NEEDLING SYSTEM

ULTIMATE EDITION

THE WORLD'S

FIRST & ONLY

FDA CLEARED PULSED WAVE AND CONTINUOUS WAVE RADIO FREQUENCY MICRONEEDLING DEVICE

DUAL WAVE RF MICRO NEEDLING SYSTEM

CONTINUOUS WAVE (CW) & PULSED WAVE (PW)

SYLFIRM X Ultimate Edition with its 8 different CW/PW modes has proven its effectiveness and safety through numerous clinical studies and experiments.

BIPOLAR NON-INSULATED ELECTRODE SYSTEM

SYLFIRM X adopted bipolar non-insulated micro needle electrodes to cover all dermal layers with uniform electric field and maximize the treatment result specifically for the melasma, rosacea, and PIH during the Pulsed Wave (PW) modes, including skin tightening and other benefits during the Continuous Wave (CW) modes.

Pulsed Wave Mode

Energy delivered to the basement membrane and abnormal small blood vessel.

Continuous Wave Mode

Thermal energy are delivered along electrodes in total dermal layer.
