

STUD SERVICE AGREEMENT

Owner Name _____ Phone _____
Address _____
Dam's Registered Name _____ Color _____
AKC ? Yes/No Registration # _____ Email _____

How did you hear about us? Google search/website Facebook Instagram Referral Other _____

Stud is American Kennel Club (AKC) registered. Registration with any organization other than AKC must be approved by breeder. If dual registration is desired, dam's owner is responsible for registration fees for both dam and stud.

**** If Dam *is* AKC registered and a certified copy of her AKC registration is submitted with this agreement:**

Half of the stud service fee due plus full shipping fees must be paid prior to shipment or insemination. The remaining balance of the stud service fee is due prior to litter registration of puppies or 8 weeks after puppies are born, whichever comes first. Any balance owed must be paid before we approve your litter registration.

**** If Dam *is not* AKC registered or you do not submit a certified copy of her AKC registration prior to stud service:**

Full payment of the stud service fee and shipping fees must be made prior to shipment or insemination.

On-site stud service at our location is provided through artificial insemination ONLY. Procedure will be provided by the stud's owner at no additional charge. If a licensed veterinarian is preferred, it will be at the additional expense of the dam's owner (not included in the stud service fee), and must be arranged and paid for directly by the dam's owner.

For shipment of semen, there is an additional \$175.00 shipping charge for each overnight shipment (add \$25 for Friday shipment- shipping companies charge extra for weekend deliveries.) Each shipment will contain an amount of semen for one insemination. Semen is sent chilled in an insulated box & container. Box and contents must be returned to breeder (pre-paid postage label provided.)

Shipping customers: payment by Paypal. Paypal account should be the customer's account. If not, the Paypal account holder must also sign this agreement. Payment must clear prior to shipment. We recommend that you make Paypal payments the day before shipment- we will not accept "pending payments."

On-site customers: advance payment must be made in cash.

Stud's Name: _____ Stud Service Fee: \$ _____

Stud service fee due in advance: \$ _____	See above requirements for full or half fee due in advance
Shipping fees: \$ _____	1 shipment = \$175....2 shipments = \$350...add \$25 if shipping on a Friday)
Total fees due in advance: \$ _____	
Balance due after litter born: \$ _____	BALANCE MUST BE PAID BEFORE APPROVAL OF LITTER REG.

Stud service fee applies to insemination of one dam only.

Recommendation: Have a progesterone test done on the dam especially customers who are having semen shipped. The most important factor in a successful artificial insemination is the proper timing of the insemination.

If the dam does not conceive, additional breeding to the same dam may be provided, however you must contact the breeder between 50-55 days after first insemination to qualify for the additional breeding. If approved, a free (no additional stud service fee) 2nd breeding to the same dam will be provided. If the 2nd breeding is unsuccessful in producing a pregnancy, a free 3rd and final breeding will be provided. If the 3rd breeding is unsuccessful in producing a pregnancy, no additional breeding will be provided. The original stud service fee and all shipping fees are non-refundable. Dam's owner will be responsible for any and all veterinary, traveling and/or shipping expenses for the 1st, 2nd and 3rd breeding.

I hereby certify that I am the owner of the dam, have read this agreement in full, understand its complete contents, and agree to it fully.
