Full Stack Developer (Adobe Commerce Cloud)

Position Overview:

We are seeking a skilled and versatile Full Stack Developer to join our team, specializing in Adobe Commerce Cloud and front-end technologies. This role requires expertise in both backend and frontend development, with a focus on creating robust and scalable solutions for our e-commerce platform. The ideal candidate will have a deep understanding of Adobe Commerce Cloud and modern frontend frameworks, enabling seamless collaboration across all aspects of development.

Location: Remote

Employment Type: Full-time

Key Responsibilities:

- Develop and maintain backend functionality using Adobe Commerce Cloud and its bundled tools, including Magento, Adobe Sensei, and Fastly.
- Work on frontend development using Next.js, React, PWA (Progressive Web Apps), and GraphQL to deliver dynamic and responsive user interfaces.
- Ensure smooth integration of frontend and backend systems to enhance platform functionality and performance.
- Collaborate with cross-functional teams in an Agile development environment to meet project goals and deadlines.
- Use Git for version control and participate in code reviews to maintain high-quality standards.
- Utilize Atlassian tools like Jira and BitBucket to manage tasks and track project progress.
- Troubleshoot and resolve technical issues to optimize system performance.

Required Skills and Qualifications:

- Proficiency in Adobe Commerce Cloud, including its ecosystem of tools beyond Magento, such as Adobe Sensei and Fastly.
- Strong knowledge of PHP for backend development.
- Experience with frontend technologies, including Next.js, React, GraphQL, and PWA.
- Familiarity with Git for version control and Agile development practices.
- Experience with Atlassian tools like Jira and BitBucket.
- Understanding of e-commerce best practices and workflows.
- Strong problem-solving skills and attention to detail.

Working Hours Requirement:

- The team operates in the New York time zone, so we are looking for a candidate who is both able and willing to work within this time zone.

Preferred Skills:

- Knowledge of WebScale and its deployment processes (not mandatory).
- Familiarity with additional e-commerce optimization tools and platforms.

What We Offer:

- A dynamic and supportive team environment.
- Opportunities for professional growth and development.
- The chance to work on innovative e-commerce projects.

We look forward to reviewing your application and exploring how your expertise can contribute to our team! Apply today to join our growing team by sending your application and cover letter to people@bravosouth.com!
