

Shopware Developer for eCommerce (Magento)

Location: 100% remote

Employment Type: Full-time

About the role: We are seeking a skilled Shopware Developer with strong experience in eCommerce solutions based on Magento. The ideal candidate will be responsible for developing, customizing, and maintaining eCommerce applications, ensuring a seamless user experience, and collaborating with cross-functional teams.

Key Responsibilities:

- Develop and maintain eCommerce websites using Shopware and Magento platforms.
- Customize Shopware plugins and themes to meet client requirements.
- Collaborate with designers and product managers to implement user-friendly interfaces.
- Optimize website performance and ensure high availability.
- Troubleshoot and resolve issues related to website functionality and performance.
- Stay updated with the latest industry trends and technologies to enhance eCommerce solutions.

Qualifications:

- Proven experience as a Shopware Developer, with a strong portfolio of completed projects.
- Proficiency in Magento, including knowledge of its architecture, features, and customization options.
- Solid understanding of PHP, HTML, CSS, JavaScript, and SQL.
- Experience with responsive design principles and mobile-first development.
- Familiarity with version control systems (e.g., Git) and agile methodologies.
- Strong problem-solving skills and attention to detail.
- Excellent communication skills and ability to work collaboratively in a team environment.

Nice to Have:

- Education: A background in Computer Science, Information Technology, or a related field would be great, but it's not a deal-breaker.
- Knowledge of German is a plus, but not mandatory.

Working Hours Requirement:

- The developer will be managed by the NY team and should have sufficient overlap with their working hours. Availability is required at least during the morning hours in NY, until approximately 12:00 or 1:00 PM EST.
