Directors:

Chris Reiken 0402 015 215

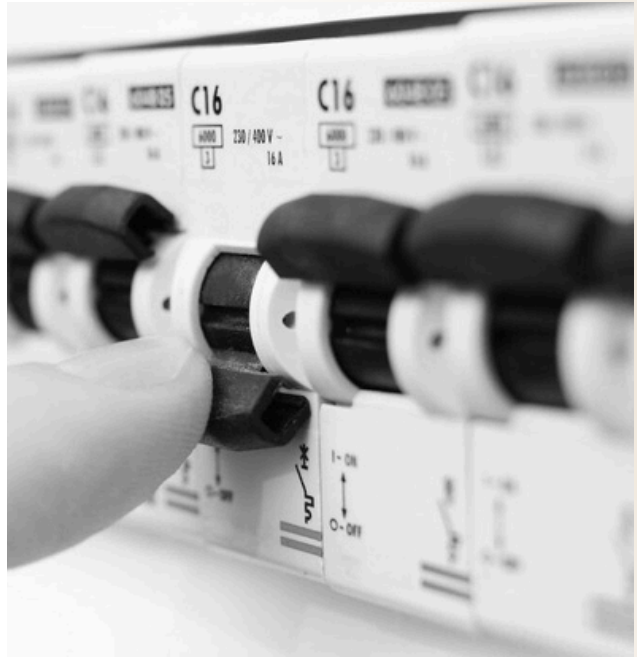

Kris McMillan 0422 532 674

History and Overview

The business was founded in 2021 by Kris & Chris after the upheaval covid put us all through. We have started from humble beginnings but are growing due to our years of industry knowledge and experience.

Kris has spent over 20 years in the industry in wholesaler and estimator roles working his way to Estimating manager in his previous role. Kris's strength is in working with clients on the pre-award components of projects offering scope, design and value engineering solutions.

Chris has spent over 35 years in the industry in tier 1, 2 and 3 companies, starting as an apprentice and working his way to Construction Manager in his previous role. Chirs's strength is in Project Management and has experience in all facets of the electrical industry.

Our growing team complements the business management and together we are a strong, capable, reliable company focused on providing ongoing high-level support to our clients.

Mission Statement

Our business was founded on a simple belief: we can do better. This concept drives us and serves as our compass in all interactions with clients, staff, subcontractors, suppliers, and contacts. Our vision isn't to become the largest contractor; rather, **we aspire to be the contractor people trust and choose, not solely based on price but because of our commitment to excellence.**

From the tender stage onward, we collaborate closely with our clients, offering real design solutions and value engineering. Our goal is to give our clients a competitive edge in their submissions and project acquisitions.

Transparency is at the core of our approach—we provide open and honest information, fostering trust in every interaction.

Remarkably, we've built our business without any marketing efforts. Leveraging long-term industry relationships, we've gained a foothold and steadily grown. Our success comes from adhering to the old-school principle of delivering on your promises. By doing what we say, we've secured ongoing work with our current client base, and we are now looking for the next growth step. We believe what truly sets us apart is our conduct and the focused and committed support we provide to our staff. We believe this distinguishes us from most other contractors our clients engage with. **We believe our best business strengths are our ability to just get stuff done with minimal issues and our ability to maintain, foster and grow real relationships with all our interactions.**
