SUBJECT: Post Standard Operating Procedures

1. **PURPOSE:** This SOP is for information, guidance, and compliance by all personnel. It is designed to standardize operating policies for all personnel and provide an accessible reference.
2. **DISSEMINATION AND POLICY:** Officers and Noncommissioned Officers will insure that personnel know and comply with the policies and procedures contained in this SOP.
3. **CHANGES:** Changes are summarized in the beginning of this document upon each revision. This policy will be updated upon identification of major changes, or at a minimum, annually.
4. **SEVERABILITY:** If any portion of this policy is found to be invalid, illegal, or unenforceable, that portion will be excluded only to the extent of its faults. All other sections remain in full effect.
5. The point of contact for this instruction is CPT Shane T. Maher at (503) 836-4097 or shane.t.maher.mil@mail.mil

THE PEARL OF THE PACIFIC

PETER D. HELZER
LTC, FA
Commanding

Summary of Changes:

9 July 2017

1. Changes references to Range Control, to Range Operations in order to comply with current doctrinal terms and references.
2. Clarifies roles for establishing and implementing SOPs between the Post Commander and Facility Manager.
3. Removes references to off-post training areas, as there are presently no cooperative use agreements with outside landowners.
4. Updates list of Appendices and Tabs to reflect current forms and range binder contents.
5. Miscellaneous formatting updates.
6. Adds policies on the use of ATVs and UAS/Drones.
7. Expands policy on Fueling Operations.
8. Removes references to Butterfly Habitat, as that has been moved off post.
9. Adds policy on Lead Abatement and Weapon Cleaning.
10. Updated title of Facility Manager to Training Site Manager.

3 October 2017

1. Added tsunami evacuation procedures.
2. Updated after hours check-in procedures.

7 July 2018

1. Added risk approval decision authority levels for DRM worksheets submitted to Range Operations.
2. Added invalidation language to policy memorandum.
3. Clarified prohibition on A&E in Cantonment.
4. Added FAA UAS COA and DSoD Guidance references to UAS policy.
5. Modified responsibilities of the Post Commander IAW NGR 5-3, 10 August 2015.
6. Modified responsibilities of Training Site Manager IAW TAG Guidance, 17 May 2018.
7. Modified responsibilities of the Range Operations Officer IAW TAG Guidance, 17 May 2018.
8. Added suspense for submission of completed training packets.
9. Weapon cleaning at 7374 added.
10. Updated use priorities from DCSOPS.

INDEX

Chapter 1: General

1-1. General:	9
a. Purpose	9
b. Scope	9
c. Applicability	9
1-2. Command:	9
1-3. Duties and Responsibilities:	9
a. Post Commander	9
b. Training Site Manager	10
c. Range Operations Officer	11
d. Using Unit Commander	11
1-4. Use of Camp Rilea:	12
a. Priority Units	12
b. Camp Rilea Use Requests	12
c. Lodging Assignments	13
(1) Civilian Organizations	13
(2) Military Community Housing Rentals	13

Chapter 2: Administration

2-1. Post Activities:	13
a. Post Exchange	13
b. Port Light Cafe	14
c. Athletic Programs	14
d. Post Gym	14
e. Post Chapel	14
f. MWR	14

APPENDICES:

- A. Safety
- B. Billeting Price Sheet
- C. VIP Housing Policy
- D. Range and Environmental Briefings
- E. Range and Training Area Checklists
- F. Aircraft Approach and Departure Procedures

Chapter 1

General

1-1. GENERAL

a. **PURPOSE.** This SOP is established as guidance for employees, tenants, and users of Camp Rilea, Warrenton, Oregon.

b. **SCOPE.** This SOP contains administrative, personnel, logistics, and training guidance for using individuals and organizations.

c. **APPLICABILITY.** Guidance is applicable to all users of Camp Rilea including DOD, civilians, state, and federal government entities.

1-2. COMMAND

The Chain of Command on Camp Rilea is outlined below. The duties and responsibilities of each individual are contained in Paragraph 1-3.

a. POST COMMANDER

b. TRAINING SITE MANAGER

c. RANGE OPERATIONS OFFICER

d. USING UNIT COMMANDER (Using Unit Senior Military Leader)

1-3. DUTIES AND RESPONSIBILITIES

a. POST COMMANDER:

(1) Commands the ARNG garrison and serves as the TAGs senior executive for ARNG GTC activities.

(2) Is responsible for daily operations and overall management of the ARNG GTC and base operations services including the operations, maintenance, and management of all real property assets located on the ARNG training center cantonment area, ranges, training facilities, and training lands with the assistance of the Training Site Manager and Range Operations Officer.

(3) Operates ARNG GTCs effectively, economically, and in accordance with applicable laws and regulations.

(4) Approves and issues garrison policies in accordance with respective state, NGB, and Army regulations as directed by TAG.

(5) Develops and implements the ARNG GTC force protection program with the assistance of the Training Site Manager and Range Operations Officer.

(6) Provides input to the CFMO with a prioritized list of SRM and UMMC projects and requirements.

(7) Evaluates the effectiveness of ARNG GTC services and support.

(8) Organizes ARNG GTC support activities and establishes managerial procedures in accordance with laws and regulations.

(9) Develops and forwards through command channels appropriate requests for deviation from the standardized organizational and functional alignments prescribed by this regulation.

(10) Ensures that key garrison staff, both civilian and military, receive appropriate training.

(11) Participates in and coordinates with the development of the ICRMP and any NEPA documents involving the ARNG GTC. The INRMP and ICRMP must reflect mission requirements for ranges and training lands.

(12) Develops and implements appropriate environmental, safety, natural resource, and public information programs to ensure continual effective operation of the ARNG GTC.

(13) Verifies proper use of ARNG GTC real property facilities and coordinates any changes in real property facility use from original constructed purpose with the assistance of the Training Site Manager and Range Operations Officer.

(14) Represents the ARNG and the ARNG GTC in the surrounding community as directed by the TAG.

b. TRAINING SITE MANAGER:

(1) The Training Site Manager represents the Commander in community engagement activities as needed

(2) Works with the Range Operations Officer to plan and execute infrastructure projects, and ensures the Post Commander and key staff are informed of progress and timelines.

(3) The Training Site Manager develops and implements policies and procedures providing maximum administrative and logistical support to organizations at Camp Rilea.

(4) Assists the Post Commander in establishing directives for guidance affecting and facilitating operations at Camp Rilea.

(5) Ensures implementation of Camp Rilea Standard Operating Procedures (SOP).

(6) Supervises all Service Contract, Site Contract, and State employees (permanent, temporary, and seasonal) engaged in facility support missions of Camp Rilea.

(7) Responsible for keeping the Post Commander and appropriate staff officers advised on all Armed Forces Training Center fiscal, construction, and logistical matters.

(8) Annual budget preparation for Training Center Real Property, SRM, and Maintenance.

(9) Serve as the point of contact concerning support and range facilities maintenance and construction on the training center.

(10) Responsible for proper utilization of non-appropriated funds originating from State or Federal sources.

(11) Responsible for on-site AT/IDT Special Services Activities in conjunction with the Range Operations Officer. Coordinates with Army and Air Force Exchange Services to ensure adequate PX services are available.

Coordinates private contract services as required (i.e. the post pub).

(12) Develops and supervises a training site security plan that provides security for unit areas and facilities on a year-around basis.

(13) Assures compliance with all environmental regulations as established by Federal, State, and local agencies.

(14) Assures that an effective and aggressive safety program is established for tenant organizations and using units in accordance with BOLI and OSHA requirements.

(15) Performs other duties as assigned.

c. RANGE OPERATIONS OFFICER:

(1) Supervise ARNG Federal Employees assigned to Camp Rilea, and State Employees assigned to ITAM, RTLP, TADSS, and Billeting/Lodging programs.

(2) Troop Support of operations and training to include maneuver, exercises, and tests on and off the training center.

(3) Develop and supervise training center protection measures to include all aspects of the Army's antiterrorism program at the training center level.

(4) Coordinate training center aviation flight, airspace control, airfield and airborne operations.

(5) Manage for the commander, in coordination with the State Safety Office, the training center safety program that includes ground, aviation, and explosive safety functions.

(6) Allocates buildings, unit areas, training areas, and ranges to units and other agencies that are using the facility. Coordinates the use of training areas, ranges, and other facilities.

(7) Plan, direct, advise, and coordinate the procurement or production, fabrication, repair, storage, issue, and use of training devices and graphic training aids.

(8) Determine support requirements and training center capabilities and coordinate the training center support for user organization training.

(9) Provide user organizations with training center policies and procedures.

(10) Provide assistance and coordination between user organizations and other points of contact as necessary.

(11) Represent the training center at CONUS Training Site scheduling conferences and prepare the Training Site center schedule.

(12) Coordinate and operate the training center noncommercial communications net (including tactical AM/FM) with using units.

d. USING UNIT COMMANDER: The senior military leader of using units will assume the title of "Unit Commander". The senior officer (or NCO) from each unit will serve as

the Unit Commander for their respective element when troops from two or more components are present. Responsibilities of the Unit Commander include:

- (1) Management of unit training.
- (2) Administrative support for assigned or attached personnel in the areas of health, safety, supply, subsistence, recreation, welfare, appearance, and discipline of troops (both on and off post).
- (3) Security and maintenance of organic property and property issued in conjunction with the use of Camp Rilea.
- (4) Protection and care of buildings, areas, and facilities assigned to the using unit.
- (5) Fire safety and protection in assigned areas.
- (6) Requests for facility maintenance services. Routine services will be written and delivered to the next higher commander. "ROUTINE" is defined as those services where a delay of a few hours will not jeopardize the unit mission or otherwise cause undue problems. "URGENT" services are requirements that must be accomplished immediately to preclude loss of life, property, or that jeopardizes the unit's mission, troop health, and/or welfare. Urgent requests will be transmitted through channels by radio, telephone, or messenger.
- (7) Interpreting and applying the guidance contained in this SOP to all subordinate personnel.
- (8) Provide the Post Commander with a locator system to facilitate contact of personnel in case of emergency.

1-4. USE OF CAMP RILEA

a. **PRIORITY UNITS:** The general priority of units is: Focused Readiness Units, Deploying units, ABCT, SBCT, RTI, other Oregon ARNG units, Oregon ANG units, Reserve units, Active Component units, Law Enforcement, Federal Agencies, State Agencies, civilian schools, youth groups or athletic teams, and other civilian organizations. This priority list does not imply a request from a group with a higher priority will automatically supersede another previously scheduled group. DCSOPS, IAW TAG guidance, will determine if and when a previously scheduled group will be rescheduled to accommodate a higher priority group.

b. **CAMP RILEA USE REQUESTS:** Requests for Support (RFMSS or AGO Form 207) will specify only those areas actually required for use, and then only on the specific days and times they are required. **BLANKET REQUESTS FOR THE USE OF CAMP RILEA WILL NOT BE CONSIDERED.** This is necessary to ensure maximum utilization of the post. Requests for the use of Camp Rilea will be submitted in the following manner:

(1) AGO FORM 207 (Camp Rilea Training Support Request). AGO Form 207 will be submitted to Camp Rilea operations via email to ng.or.orarng.list.i3-rilea-ago207@mail.mil for all non-military organizations

(a) Tentative reservations telephonically will not be accepted.

(b) Military Organizations will make requests on RFMSS.

(c) Units other than the Oregon Army National Guard must make funding arrangements through the USPFO for Oregon (telephone: Commercial 503-584-3946; DSN 355-3946) prior to arrival at Camp Rilea.

(2) Oregon Army/Air National Guard units requiring equipment from Camp Rilea UTES must use AGO Form 740. All other non-Guard units will attach a letter of requirement to this form.

(3) DA Form 1687 (Signature Card) must be completed and signed by the unit commander indicating authorized representative, and be on file at Post Supply, Billeting, TISA, Range Operations and UTES prior to obtaining supplies, equipment, ranges, or training areas. A copy of the approving officer's assumption of command orders must accompany the 1687.

(4) Training packets must be complete and submitted to Range Operations NLT 30 days prior to arrival or your reservation may be cancelled.

c. LODGING ASSIGNMENTS: Will be accomplished by the billeting personnel based on availability, suitability, type of using unit, number of personnel, and other pertinent considerations.

(1) CIVILIAN ORGANIZATIONS: Qualified civilian organizations may rent or lease portions of Camp Rilea by contacting the billeting and range control schedulers. The commercial telephone is (503) 836-4046 or (DSN) 355-4046.

(a) Procedures and fees are established in Oregon National Guard Regulation (ORARNGR 405-4). Police agencies will use AGO Form 207 as outlined above in paragraph b-1.

(2) MILITARY COMMUNITY HOUSING RENTALS: Members of the Military Community may rent on-post housing in their civilian status. Procedures for this are contained in ORARNG 450-4.

Chapter 2 Administration

2-1. POST ACTIVITIES

a. POST EXCHANGE: Hours are 1100 to 1700 Tuesday through Saturday, closed Sunday and Monday. Exchange hour adjustment requests must be submitted by either the Using Unit Commander or unit representative through the Exchange Manager.

b. PORT LIGHT CAFE: Hours are Monday through Saturday 1100 to 2200. This establishment is open to Soldiers, all using customers of Camp Rilea and to the public for food and beverages. It is the unit commander's responsibility to ensure their Soldiers are conducting themselves in an appropriate manner, inappropriate behavior will not be tolerated and may result in losing privileges to the Port Light or Camp Rilea.

c. ATHLETIC PROGRAMS: recreation areas are available for softball, volleyball, and other sports. Contact Range control and billeting for available areas and equipment.

d. POST GYM (Bldg. 7015): Available to the Unit Commander for appropriate use. The key is available at billeting.

e. POST CHAPEL: Located in Bldg. 7209 at the junction of Clatsop Avenue and North Oregon Streets. Contact Billeting for facility use.

f. MWR: The MWR program is temporarily suspended.

g. COMMUNITY STANDARDS: All persons associated with this post must adhere to standards of proper bearing and behavior in all contact with the civilian community.

2-2. POST ADMINISTRATION

a. PUBLICATIONS/BLANK FORMS: Publications are a unit responsibility. Forms pertinent to Camp Rilea (issue, turn-in, check lists, etc.) will be furnished by Camp Rilea Range Operations, UTES and Billeting.

b. COPY MACHINE: Units will provide internal photocopying services.

c. ALCOHOL: Alcohol will not be consumed in Training Areas, on Ranges or in Range Buildings, in Warrior Hall, or in the Chapel (except communion at the discretion of the Chaplain). No drinking and driving is allowed on post. Consumption of Alcohol at the Port Light Café, in the old Officer's Club at Building 7302, in the Log Cabin Conference Center, in any temporary structure established for an event, or in Billeting areas is allowed by using units at the discretion of the first Field Grade Commander in the Chain of Command, as long as the provisions outlined in the Adjutant General's Command Policy Memorandum on Alcohol Consumption are met.

d. PRIVATELY OWNED VEHICLES (POVs): POVs are allowed on post with the following restrictions:

(1) Camp Rilea is a State owned, open post with premises open to the public. The public may enter and travel on public roadways with travel restrictions in range and training areas. The Oregon Vehicle Code, Oregon Criminal Code and the Oregon Code of Military Justice are enforced on Camp Rilea.

(a) No POVs are allowed outside of the cantonment area (paved surface area) except to access Slusher Lake Recreational Area.

(b) Drivers must obtain a POV pass from Range Operations.

e. TACTICAL VEHICLES: Control of tactical vehicles is the responsibility of the associated Using Unit Commander. No off-road use is allowed without prior approval

from Range Operations. Military vehicles must be secured when parked with chock blocks and drip pad/pan.

f. NTV and GSA VEHICLES: Require a range pass from Range Operations before being operated outside the cantonment area.

g. ALL-TERRAIN VEHICLES (ATVs):

(1) There are no recreational ATV areas on Camp Rilea.

(2) Administrative use of ATVs in garrison requires specific ATV licensing and a roster of approved operators submitted to Range Operations.

h. SPEED LIMITS:

(1) Maximum speed on post is 20 MPH in the cantonment and training areas.

(2) Vehicles meeting or passing troops will slow to 10 MPH.

(3) Beach speed limit is 25 MPH by Oregon Law.

(4) Driving on post is a privilege that may be revoked at any time by the Post Commander or designated representative.

(5) Absolutely no vehicle parking within 15 feet of a fire hydrant. Vehicles will NOT BE PARKED in the circle drive in front of the Club and VQ because it is a designated fire lane.

2-3. REQUIRED REPORTS

a. UNIT ALPHA ROSTER: Deliver to Range Operations Bldg. 7021 upon your arrival. The alpha roster will be used in the event of an emergency.

b. CUSTOMER COORDINATION BRIEF: Attend the daily 08:00 brief in Bldg. 7021.

c. UNIT DAILY BULLETINS (if applicable): Forward to Range Operations as published.

d. VIP ITINERARY: Provide to Range Operations in advance of arrival. Ensure the roster includes the VIP name, rank, title, arrival /departure times, length of stay, and any other special needs or circumstances.

e. UNIT CEREMONIES: Provide a roster to Range Operations in advance of events (change of command, promotions, retirements, other events).

f. LINE OF DUTY REPORTS: Submit a copy of DA form 2173 to Training Site Command administration personnel within 24 hours Bldg. 7021.

g. AFTER ACTION REPORTS: Submit to Range Operations prior to unit departure.

h. DELIBERATE RISK ASSESSMENT: DRAW worksheets will be submitted with each request for a range, facility, or training area. The risk approval authority for each level is:

(1) Low: Company level or equivalent Commander

(2) Medium: Company level or equivalent Commander

(3) High: Battalion level or equivalent Commander

(4) Extremely High: Brigade level or equivalent Commander

(5) The Range Operations Manager, Training Site Manager, and Post Commander have the discretion to elevate these approval levels to the first General Officer in the Chain of Command.

2-4. POST EMERGENCY SERVICES

- a. UNIT CQ: Units will assign a CQ for emergency calls and fire watch.
- b. POLICE:
 - Oregon State Police (OSP): 503-325-2231
 - Clatsop County Sheriff's Department 503-325-8635
 - Seaside Police Department: 503-738-6311
 - Astoria Police Department: 503-325-6411
 - Gearhart Police Department: 503-738-5501
 - Warrenton Police Department: 503-861-2285
- c. HOSPITALS:
 - Astoria-** Columbia Memorial Hospital 503-325-4321
2111 Exchange Street
Astoria, Oregon 97103
 - Seaside-** Providence Hospital 503-717-7000
725 South Wahanna Road
Seaside, Oregon 97138
- d. FIRE & EMERGENCY: Dial 911 to initiate response for ALL emergency services such as Fire, Police, and Medical that require expeditious response, contact Range Operations. Refer to Para 3-6 for range and wildfire procedures.
- e. SICK CALL: Camp Rilea does not have medical personnel assigned. Sick call is the responsibility of the using unit.
- f. EMERGENCY MEDICAL CARE-AMBULANCE:
 - MEDIX AMBULANCE SERVICE 503-861-1990
2325 SE Dolphin Ave.
Warrenton, Oregon 97146
- g. MEDEVAC SERVICE: is a unit function which must be coordinated through Range Operations.

2-5. POSTAL SERVICES

- a. PERSONNEL REQUIREMENTS: Each unit Commander designates personnel to pick up unit mail at Post Headquarters, Building 7021.
- b. The Mailing Address on post is as follows:
 - Rank, Name, SSN
 - Unit of Assignment
 - Building 7021, 33168 Patriot Way
 - Warrenton, OR 97146-9711

2-6. SAFETY

- a. Unit Safety Briefings will be conducted for every activity. Unit personnel will attend all pertinent safety briefings conducted by Range Operations.
- b. All users must receive at a minimum the post Welcome Brief. Coordinate briefing times with Range Operations when you first arrive at Camp Rilea.
- c. Safety is an all-encompassing mindset which is part of the culture at Camp Rilea.
- d. The Safety SOP is located in appendix A to this SOP.

Chapter 3 Operations and Training

3-1. GENERAL

- a. RANGE OPERATIONS: Located in Bldg. 7021 at the junction of Clatsop Avenue and McCarter Blvd.
 - (1) RANGE OPERATIONS: Controls access to and coordinates the use of Camp Rilea Live Fire Ranges, Training Facilities and Training Areas.
 - (2) FIRE DESK: Authorizes occupation, training and live fire within the constraints and limitations of Operation plans and Camp Rilea safety rules and regulations.
 - (3) Range Operations Personnel serve as the eyes and ears of the Range Operations Officer. When directing units in regard to range regulations or safety issues, Range Operations Personnel speak with the authority of the Range Operations Officer and the Post Commander. Qualified personnel E5 and above are authorized to man the Fire Desk, conduct briefings and act as liaison with using units in training areas or on small arms ranges.
 - (4) Units are not authorized to train or fire weapons on this facility without obtaining proper authority from Range Operations first. Range Operations is the communications center for the Post and coordination point for control and safety of all operations.
 - (5) Communication is a priority at Range Operations with telephone lines and radio sets linking every operation. Primary communications is handheld Harris channel 3. Secondary is SINGARS at 40.900 mHz, SC/PT. Tertiary is by telephone.

3-2. RANGES, TRAINING AREAS, AND TRAINING AIDS

RANGES AND TRAINING AREAS: The following Ranges and Training Areas have been established at Camp Rilea. The Standard Operating Procedures for these ranges are available through Range Control.

a. CAMP RILEA RANGES:

Range	Location	Description
PISTOL	27500743	8 Firing Points
GRENADE	27500743	4 Firing Points
RAZOR CLAM DZ		
ZERO I		25m Rifle,
KNOWN DISTANCE (KD)	27630764	40 Points – 25m, 28 Points – 200yd/182m, 14 Points – 300yd/273m, 14 Points – 100yds/91m
EXPLOSIVES TRAINING AREA	27090754	2.5LB CHARGE LIMIT
CLAYMORE MINE	26910761	8 FIRING POINTS
MG TRANSITION	27280904	Target emplacement coordinated through Range Control
M203/M320 GRENADE / .50 CAL.	27220915	1 lane, 4 points (40MM TPT / .50 Plastic Only)
2-MILE RUN	27830775	Paved & Gravel Surfaces
LAW/AT-4	27220920	4 Points, SF Sub-Caliber Only
ZERO II RANGE – M240B/M249/M16/M4	27610773	45 M16/M4 Points, 4 M240B/M249 Points
ZERO III RANGE - M240B/M249/M16/M4	27450810	50 M16/M4 Points, 10 M240B/M249 Points
12 mi ROAD MARCH	28000750	2 Routes
MOUT SITE	27660722	11 Buildings - 1 Designated CBRN, 5 Acres
LAND NAVIGATION	27500820	36 Routes, Day/Night
CONFIDENCE/OBSTACLE COURSE	27150715	Obstacle course for individuals
6 mi ROAD MARCH	28000800	Paved & Gravel Surfaces
PRACTICE HG ASLT/QUAL	27450741	
PRACTICE GRENADE	27450741	25m Circle for Distance/Accuracy
COMBAT HG COURSE	27650782	25m Circle
MODIFIED RECORD FIRE	27450855	16 Lanes
ENGAGEMENT TARGET SYSTEM (EST II)	27500855	10 Firing Points
FATS V	27980810	10 Firing Points
CALL FOR FIRE TRAINER	27980810	1:12
VBS-1	27740765	Battle Simulations

LIVE FIRE SHOOTHOUSE	27490740	2 Stories, 12 Rooms
VEHICLE CONVOY TRAINER (VCOT)	27500855	
RAPPELLING TOWER	27150955	60' & 30' Platforms/UH-1 Mock-up
HEAT (HMMWV Egress Assistance Trainer)		Roll-over trainer
INDIRECT FIRE	27250885	SABOT ONLY
BRIDGING SITE	TA 6	6 FIXED SITE
BRIDGING SITE	TA 1	3 POINTS
HELO PAD (OR 15)		

b. MAPS: Maps of the Camp Rilea garrison and training areas in 1:12,500 are available from Range Operations. All coordinates shown in this SOP are for the 1:12,500 Camp Rilea map.

c. RANGE BRIEFINGS: 0800 daily or by appointment with Range Operations.

(1) Units desiring to make changes to scheduled ranges or training areas must be present.

(2) Battalion and larger sized units may schedule a range conference to facilitate range and training area requests. Units should schedule this meeting at least 30 days prior to the unit's arrival date.

d. TRAINING AIDS: The following list of training aids is available at Camp Rilea.

Field Training Aids	QTY
Terrain Board for TOW	1
AK-47 Mockup	2
M-16 Mockup	10
M-21 Practice Anti-tank Mine	20

3-3. WEAPON CLEANING:

a. Fired weapons will not be taken into administrative buildings or billeting areas until they have been cleaned.

b. Cleaning facilities are provided at Bldg 7700 near the MOUT site and Bldg 7374 near the MRF. Additional facilities near the Zero Ranges are in development.

c. Additional requirements are available in the TAG Lead Abatement Policy.

3-4. MILES EQUIPMENT: Camp Rilea has the following MILES equipment on hand:

a. REQUEST PROCEDURES

(1) Request Field Training Aids on a memorandum of request through Range Operations.

(2) Request MILES equipment on Camp Rilea MILES Request Form through Range Operations.

MILES 2000 EQUIPEMENT	QTY
M16A2/M4 TRANSMITTER (w/ TORSO AND HELMET HARNESS)	600
M249 SAW TRANSMITTER (w/ TORSO AND HELMET HARNESS)	96
M240B MACHINE GUN TRANSMITTER	96
M24 SNIPER SMALL ARMS TRANSMITTER	12
M2 50 CALIBER MACHINE GUN TRANSMITTER	12
M19 (BLANK FIRING ADAPTER FOR 50 CALIBER MACHINE GUN)	12
MILES 2000 CONTROLLER DEVICE (GOD GUN)	30
ASAAF (AUTOMATIC SMALL ARMS ALIGNMENT FIXTURE)	12
AT-4 SIMULATOR MISSILE SYSTEM (MILES LASER)	12
AT-4 M287 LAUNCHER (9mm tracer TRAINING DEVICE)	12
ITS (INDEPENDENT TARGET SYSTEM - VEHICLE MILES)	10
R/X PIPE BOMB	3
Sweep monitoring System AN/PSS-14	1
LTIDS (LASER TARGET INTERFACE DEVICE)	0
MACS (M16 SUPER NINTENDO TRAINER) (CHECK AVAILABILITY)	3
BOSNIAN MINE KIT (CHECK AVAILABILITY)	1
MINE TRAINING KIT	6
SUICIDE VEST	3
75MM R/X DUAL SOLENOID AIR TRIGGER	3
ILLUMINATION F/X	1
A.R.C.THREAT SIM	3
GRENADE DISTRACTOR	3

3-5. TECHNICAL AND TRAINING PUBLICATIONS Technical and training publications (or extracts thereof) pertaining to weapons in use must be available on the range for reference by the Range OIC / NCOIC. These references and regulations are the responsibility of the using unit.

3-6. RESPONSIBILITIES

a. RANGE OPERATIONS:

(1) Plan, schedule and supervise use of facilities, training areas (to include restricted airspace).

- (2) Publish, maintain and enforce range/training regulations, SOPS, airspace procedures and firing bulletins.
 - (3) Provide target stands and equipment.
 - (4) Ensure ranges are maintained and capable of meeting training tasks.
 - (5) Identify and mark impact areas, restricted areas and dud areas in accordance with local requirements and applicable regulations.
 - (6) Provide maintenance and user training for ranges and training facilities.
 - (7) Conduct daily (as needed) range briefings.
- b. FIRE DESK: Primary functions include the following:
- (1) Validate unit OIC'S / NCOIC's and Safeties are certified.
 - (2) Conduct safety briefings/coordination meetings. Briefing will include review of the Camp Rilea Environmental Film.
 - (3) Maintain a communication network to coordinate operations. (All units using training areas and ranges must maintain a communication link to this network. See Communications/ Signal).
 - (4) Coordinate air and ground operations.
 - (5) Conduct access control as necessary.
 - (6) Clear units from ranges, training areas and training facilities prior to departure.
- c. UNIT:
- (1) Coordinate with the Fire Desk prior to occupying ranges, training areas, or facilities.
 - (2) Unit OIC must request authorization to go "hot" on a range prior to starting live fire exercises.
 - (3) Clear operations and activities with Range Operations and the Fire Desk before execution.
 - (4) Strictly adhere to all regulations and safety requirements within Army regulations, Training Manuals, and this SOP.
 - (5) Conduct safety briefings and risk management prior to all operations.
 - (6) Use only certified OIC's / NCOIC's and Safeties.
 - (7) Maintain two sources of communication with the Fire Desk prior to and while occupying a range or training area.
 - (8) Do not allow unauthorized personnel access to ranges or training areas.
 - (9) Maintain the range or training area in the condition you received it.
 - (10) Receive clearance from the Fire Desk prior to departing the range or training area.
 - (11) Use Range SOPs and TM's to ensure safety procedures are enforced.

3-7. FIRE HAZARDS & PREVENTION: ALL PERSONNEL ARE RESPONSIBLE FOR FIRE PREVENTION. Most Fires can be prevented if all personnel are alert and exercise good common sense.

a. **FIRE DANGER STATUS:** Signs with the post fire danger status are posted at the front gate, and at entrances to training areas near Special Operations and along Neacoxie Rd.

b. **FUEL IDENTIFICATION:** Most training areas contain Shore Pine, Scotch Broom and Beach Grass. The Shore Pine forested areas have a thick layer of "Duff" (dead needles and limbs), attached to the lower portions of the trees and lying on the ground. These areas are especially flammable during the summer months. Beach Grass is prevalent in most clearings and on the forward dune areas. This grass constitutes a high fire danger especially during the summer months.

c. **FUEL TYPES:** Fuel types are fine and flash, and react quickly to changes in humidity. Fires are less likely to ignite during the night and early morning hours than during the midafternoon, but changeable weather conditions make it impossible to predict. Afternoon sea breezes can fan a fire and increase its size dramatically. Wind direction may shift quickly, and on a sunny day with a slight wind, fire may spread at over fifty-five feet per minute. The rain and mist dampen the outer layer and with a slight breeze can dry very rapidly. This will be increased dramatically by warm, dry air.

d. **FIRE SEASON:** The fire season is generally from May through October. However, fire danger may be present in other months, especially when easterly winds prevail.

e. **FIRE HAZARD AREAS:** ALL training areas constitute a fire hazard, including firing ranges, buildings, rear areas on main post, and off post training areas.

f. **FIRE AWARENESS:** Fires continue to burn when personnel are unaware of the fire danger and the flammability of the fuels in the areas that they are training in. Therefore, troops must receive approval from Range Operations before using Tracer Ammunition, White Phosphorous, Smoke Grenades, Flares, or other pyrotechnic devices.

g. **FIRE WEATHER AND DANGER:** OMD Wildland Fire will keep Range Operations briefed on hazardous fire weather conditions and danger. They will also provide personnel for range briefings during these times to assist with briefings and to answer questions. During times of high fire danger or high risk operations, the staging of Fire Personnel at or near the training site will be considered.

h. **FIRE PATROL:** OMD Wildland Fire will patrol impact areas of all ranges where Tracer Ammunition, White Phosphorous, Smoke Grenades, Flares, or other pyrotechnic devices have been in use for 3 days after said training has been completed. All fires will be checked / patrolled during the following burning periods until no smoke / heat is found for 3 consecutive days. Further patrols will be made as weather dictates.

i. **WARMING FIRES:** Are NOT authorized without prior approval of Range Operations and consultation with OMD Wildland Fire.

j. TRACERS AND PYROTECHNICS:

(1) Tracer ammunition and pyrotechnics will not be used during fire season (May through October) without prior authorization from Range Operations and consultation with OMD Wildland Fire.

(2) Use extra precaution when utilizing pyrotechnics. Do NOT leave unsecured devices for later detonation by unsuspecting humans or animals.

k. SMOKING: Smoking is limited to the cantonment area, a cleared designated area in the training areas or on cleared unimproved roads. Smoking areas fifteen feet by fifteen feet or larger must be cleared of all flammable materials, and marked as a designated smoking area. Smokers must insure that all burning materials (i.e. cigarette butts) are out before leaving the area. All related trash must be removed from training areas upon departure.

l. FIRE SAFETY BRIEFS: Range Control personnel will insure that units using the training areas are fully briefed on fire danger, fire prevention rules, reporting procedures, and personnel responsibility. OMD Wildland Fire will assist as needed.

m. FIRE SUPPRESSION:

(1) With the exception of personnel safety, fire suppression takes precedence over all other activity. Immediate aggressive action taken at the direction of OMD Wildland Fire, is the best means of protecting life and the needless loss of equipment and property.

(2) Structure Fires: Should be immediately reported to the Warrenton Fire Department. DIAL 911 and provide required information. Immediately call Range Operations @ (503)836-4012/4096 and provide the following information:

- (a) LOCATION OF FIRE
- (b) SIZE OF FIRE
- (c) TYPE OF FIRE
- (d) ACTION BEING TAKEN
- (e) INJURIES OR DOWNED PERSONNEL
- (f) ANY OTHER PERTINENT INFORMATION

(3) Wildland Fires: Immediately call Range Operations @ (503)836-4012/4096 and provide the following information:

- (a) LOCATION OF FIRE
- (b) SIZE OF FIRE
- (c) TYPE OF FIRE
- (d) ACTION BEING TAKEN
- (e) INJURIES OR DOWNED PERSONNEL
- (f) ANY OTHER PERTINENT INFORMATION

(4) Range Control will alert and dispatch personnel to the main gate to guide the Fire Department to the site.

(5) Only personnel trained and equipped to fight wildfire shall be allowed to suppress Wildland fire.

n. RANGE/TRAINING AREA FIRE:

(1) Stop all training immediately, attempt to suppress the fire.

(2) To report fire, contact Range Operations at (503) 836-4066 and ARNG Wildland Fire at (503) 836-4068 or call on FM radio frequency SC PT 40.90 MHz (Range Operations), or Harris Channel 3.

(3) Send a guide to the intersection of Clatsop and Valley Way (at the Post Flagpole) to guide personnel to post fires only.

(4) Range Control will contact the Oregon State Forestry Department and Warrenton Fire Department and request assistance as needed.

(5) If assistance is needed, Oregon Training Command and other on-post support personnel will report to Post Headquarters and Range Operations will then act as a base camp and communications center.

(6) Heavy equipment, fireboxes, and transportation will be supplied by Range Operations and UTES as available.

(7) VEHICLE LOCATION: All personnel deployed to fight fire will report directly to the Incident Commander on site. Once unloaded, all vehicles will be moved to a point at least five hundred meters upwind of the fire. Personnel should be left with the vehicles in case of a wind shift.

(8) MEDICAL: will be provided by available assets. A medical staging area will be deployed within five hundred meters of the Incident Commander's position. Casualties being evacuated must be reported to the Incident Commander immediately.

(9) ARNG Wildland Fire will assume control of the firefighting effort and coordination with senior military personnel. In the absence of qualified ARNG personnel, qualified ODF or WRFD personnel will assume control of the firefighting effort, and Range control will coordinate with senior military personnel.

(10) BYSTANDERS: will not be closer than 500 meters, regardless of rank. Roads will be kept clear for emergency equipment.

(11) RADIO PROCEDURES: Proper military radio procedures will be used. ALL PERSONNEL WILL CHECK WITH THE INCIDENT COMMANDER BEFORE ENTERING OR DEPARTING THE AREA FOR ANY REASON!

3-8. TSUNAMI RESPONSE PLAN

a. There are two designated rally points on Camp Rilea:

(1) The parking area near the storage building just south of the PX.

(2) The ORANG compound east of the washrack.

b. In the event of a tsunami, all personnel are to meet at the nearest of these points and units will report accountability to Range Operations.

3-9. MEDICAL

- a. Medical emergencies are a unit's responsibility. Camp Rilea will provide all available assistance.
- b. Dial 911 immediately for emergencies and notify Range Operations.
- c. Units must provide a qualified medic on all live fire ranges.
- d. Units must provide a dedicated vehicle and litter for medical transportation.
- e. Contact Range Operations immediately for any fire that occurs and implement fire-fighting procedures.

3-10. SAFETY

- a. Observe safety requirements by type of weapon/explosive as shown in training manuals.
- b. All personnel on the firing line will wear ACH and PPE on live fire ranges IAW DA Pam 385-63. Wear of Body Armor is encouraged. Exceptions must receive authorization from Range Operations. Range Safety personnel will wear engineer tape or reflective bands on their ACH for quick identification, and chem-lights during low-light operations.
- c. Range Operations Safety Brief: Range Operations will conduct a safety briefing for the using unit Range OIC/NCOIC, and selected members of their control party, prior to their occupation of the range and going "hot".
- d. Unit Safety Brief: The using units Range OIC/NCOIC will brief all personnel on range safety prior to live fire. STRICTLY enforce safety procedures during firing.
- e. Range safety information is available in range information binders. These binders may be hand-receipted from Range Operations.
- f. Risk Management Worksheet: Unit commanders will complete a risk management worksheet of their scheduled training prior to the occupation of ranges and training areas.

3-11. OFF LIMIT, DANGER, AND RESTRICTED AREAS

- a. OFF LIMIT AREAS: The following areas and facilities have been declared Off Limits to all by the Post Commander unless specifically authorized by Range Operations:
 - (1) South Oregon Street, South of Pacific Road, excluding the heliport. This includes the State Shop buildings, the Chateau, and the residences of the Camp Rilea employees living on Post.
 - (2) South and East of Sunset Road, which includes the Sewer Treatment Plant and irrigation fields.
 - (3) Hilltop House (Bldg. 7029), North to, and including, the residence of the Facility Manager (Bldg. 7012 and 7013).

(4) The MOUT site, ranges, impact areas, Ammunition Supply Point (ASP), Waste Water Treatment Plant, Air Guard Building-Compound-Radar Site, and the Fore-dune. (The dune nearest the ocean.)

b. DANGER AREAS:

- (1) Impact and back blast areas of all ranges.
- (2) Heliports.
- (3) Ammunition Holding Area (AHA) (Bldg. 7394 thru 7399).
- (4) Electrical Power and Communications Building (Bldg. 7366).
- (5) Any area identified with warning signs or barricades.

c. RESTRICTED AREAS:

(1) Tracked vehicles are restricted from operating on paved surface roads on Camp Rilea.

(2) Fueling operations are restricted to training areas 6 and 13 only.

d. CLOSED TRAINING AREAS:

(1) Certain training areas, or portions of training areas, must be closed when specific ranges are in use due to the hazards located within the safety fan of the range. These are:

AREA	RANGE USED	RESTRICTED TRAINING AREA
B	Pistol Range	TA3, TA4
C	Grenade Range	TA2, TA3, TA4
D	Zero I, KD Range	TA2, TA3, TA4
E	Explosives Training Range	TA3
F	Claymore Range	TA3, TA4
G	MG Transition Range	TA3, TA4, TA4, TA7, TA9
H	M203/M320	TA5, TA7, TA9
J	LAW/AT4 Range	TA5, TA7, TA9
K	Zero II, Zero III	TA3, TA4, TA5
W	MRF	TA3, TA4, TA5
AA	81mm IDF	TA5, TA7, TA9, TA10

(2) The Live Hand Grenade and the Pistol Range (including pistol shed) WILL NOT BE USED AT THE SAME TIME. Guards will be posted at the “Special Operations” sign in order to prevent vehicles or personnel entering the range SDZ.

(3) Weapon ranges are authorized to be used in support of military, civilian or law enforcement agencies training.

(4) Tactical training WILL NOT BE CONDUCTED IN THE GARRISON AREA without specific approval from Range Operations.

(5) The following restrictions are applicable to the firing of munitions:

(a) White phosphorus ammunition will not be fired on Camp Rilea, or be thrown into any body of water.

(b) Units may use pyrotechnics or illumination shells within the training areas when coordinated in advance with Range Operations. The height of projectiles will not exceed 100 meters, and will not be fired when any aircraft is in sight. Observation Points will be positioned to warn the OIC/NCOIC of approaching aircraft. The use of pyrotechnics or illumination shells will be halted until the aircraft passes and Range Operations authorizes the unit to resume training.

(c) Blank ammunition will not be fired within 100 meters of any boundary of the military reservation. Troops will be briefed on the danger of firing blank ammunition. Blank ammunition will not be fired in the cantonment areas of Camp Rilea.

(d) Pyrotechnics: The months of May through October are designated as FIRE SEASON. During the fire season, no tracer, white phosphorus, or pyrotechnics will be used without specific approval of Range Operations. Approval will be time, date, and location specific. Coordination will also be implemented with U.S.C.G. Group Astoria. Pyrotechnics and chemical training munitions, if approved for use that are detonated on the ground will require a three (3) meter diameter area cleared of grass and debris.

(e) "DUD" producing ammunition will only be fired into a prescribed impact area unless otherwise authorized by Range Operations.

(f) Chemical training munitions of a toxic nature, such as tear gas, pepper spray, or mace, will only be used in approved areas. A safety officer trained in the use of these munitions must be present. Safety requirements prescribed in Chapter 17, AR 385-63 will be observed when using chemical munitions.

(g) Nonstandard Ammunition: The use of nonstandard items of ammunition or explosives in troop training will be coordinated through Range Operations prior to use. Field expedient hand grenades, booby traps, and other devices of an explosive nature are PROHIBITED.

(h) Smoke grenades attached to, or hand held, in an Army aircraft while performing in a fly-by or flight demonstration is PROHIBITED.

(i) The use of Cartridge, 40MM High Explosive Anti-Tank (HEAT) and High Explosive M203/M320 Grenade is NOT AUTHORIZED on Camp Rilea.

3-12. WARNING DEVICES

a. DANGER FLAGS: RED RANGE (DANGER) FLAGS will be flown on all ranges during the firing of LIVE AMMUNITION or DEMOLITIONS. Flags will be raised BEFORE the troops are moved up to the firing line or gun positions. They will be lowered ONLY when firing is completed and the weapons have been CLEARED.

(1) Blinking/flashing red lights will be used in conjunction with RED Range (Danger) Flags during the hours of darkness.

(2) Firing will not take place unless RED flags (day) or flags and blinking/flashing lights (night) are on display. Lack of these approved danger signals for ANY reason constitutes a range closure.

(3) Range Operations will provide required range flags/flashing red lights as necessary.

b. FLARES: RED FLARES, RED STAR CLUSTERS, AND RED SMOKE WILL NOT BE USED AT ANY TIME DURING TRAINING EXERCISES. These devices are used ONLY as an international emergency distress signal. Display of these markers will create automatic response by the US Coast Guard.

3-13. AMMUNITION AND DUDS

a. PROCESSING: Ammunition will be processed in accordance with procedures contained in Chapter 8, ORARNGR 700-1, and TM 9-1300-206. Particular care will be taken to avoid rough handling in loading and unloading operations, and in the opening of containers. Sealed containers of ammunition will be opened only as required for immediate expenditure.

b. STORAGE: Temporary storage of Ammunition and Explosives (A&E) may be accomplished in one of two ways. Regardless of the method, the requirements of DA Pam 385-63 and DA Pam 385-64 are the responsibility of the using unit. A&E will not be stored in the cantonment area, or any billeting, lodging, or administrative facility under any circumstances.

(1) ARMAG: ARMAGs may be drawn from Range Operations. An ARMAG is only rated to explosive hazard level 1.4, so only small arms ammunition may be stored in them. This storage is temporary and must be guarded, as the ARMAG is not a certified Magazine.

(2) Field AHA: Units may coordinate with Range Operations to establish a Field AHA in a training area near the range of employment. Minimum Safe Distances (MSD) and locations will be developed using the Range Manager Tool Kit (RMTK).

c. REPORTING PROCEDURES: The following procedures concerning the location, marking, and reporting of all dud explosives, pyrotechnics, and/or live ammunition found on ranges and training facilities will be followed:

(1) Order all personnel to IMMEDIATELY evacuate the area to a safe distance.

(2) Report the location of duds to Range Control by the fastest means possible.

Range Operations will notify the Oregon Joint Operations Center (JOC). Advise the Fire Desk of the location of the dud (by grid coordinates or ground reference), how the location is marked, the date and time it was found, type of round, the quantity of duds, and who found it.

(3) DO NOT TOUCH, DISTURB, OR ATTEMPT TO MOVE A DUD UNDER ANY CIRCUMSTANCES. Mark the location in a conspicuous manner, and move away from the immediate area. Post a guard (a safe distance away) to be sure that no one comes in contact with the dud if it is necessary for troops to train in the vicinity.

(4) ONLY AUTHORIZED EOD TEAMS may enter the impact area to mark or identify a dud on a range while the unit members are still at the range.

d. MISFIRE PROCEDURES: In the event of a misfire:

(1) Do not touch or tamper with the weapon or round.

(2) Notify the Range OIC/NCOIC immediately.

(3) Immediate action prescribed for the weapon and ammunition being fired will be applied in accordance with the TM for that weapon. In the event that immediate action cannot be applied, or does not correct the problem, the round will be left in the chamber and all personnel will be cleared from the immediate area until qualified personnel have cleared the stoppage.

(4) Under NO circumstance will unauthorized personnel, tools, or corrective measures be used in an attempt to resolve the misfire. Under NO circumstances will any person attempt to re-fire a round that fails to detonate properly, or that becomes lodged in a weapon.

(5) Range Operations personnel and the Post ammunition technician are responsible to enforce this SOP and those measures prescribed in AR 385-63 applicable to the activity in which engaged.

(6) Ammunition "Duds": Touching, handling, carrying away, or in any way tampering with ammunition duds or parts thereof, found on the reservation, is STRICTLY PROHIBITED.

e. AMMUNITION RESIDUE: The disposition of ammunition residue, packing containers, brass, and associated material will be as prescribed in Chapter 8 of ORARNG 700-1. Burning of unused powder increments will be accomplished only in authorized burn pits, under conditions prescribed by Range Operations.

3-14. RANGE SAFETY REQUIREMENTS (RANGES B, D, G, K. and W)

a. BEACH GUARDS: Range Operations will post a qualified beach guard/spotter equipped with binoculars, compass, hand held radios, and FM radios. The two beach guard/spotters will maintain a lookout for boats and aircraft in or near the safety fan. The Harris radio will be used as the primary means of communication between ranges and beach guards/spotters. The FM radio will be used as a secondary means of communication through the Fire Desk. All Beach Guards will have a valid military or civilian driver's license. (Military personnel requires both)

b. When a boat or aircraft is spotted that is suspected to fall within the safety fan, the spotter will immediately radio a cease fire 3 times. Range Operations will make the determination of the vessel's actual location.

c. Beach guards/spotters will operate their radios on Range Operations frequency: FM 40.90 MHz.

d. The Range Operations OIC/NCOIC will determine if it is safe to fire under a given condition.

3-15. MAINTENANCE AND INSPECTION OF TRAINING AREAS AND RANGES

a. The Using Unit Commander or his representative will inspect all areas used for training after coordinating with Camp Rilea Range Operations. Areas will be inspected prior to occupancy, and again after use, to insure that they are left in as good (or better) condition than when assigned.

b. Use of an area or range by a Using Unit Commander constitutes acceptance or responsibility for police and sanitation after use. Camp Rilea Clearance Form 350-1 will be used for clearing Ranges and Training Areas.

c. Non-policed or damaged areas will be reported to Range Operations immediately. See Appendix D for the Range Safety Briefing and Appendix E for the Range and Training Area checklist.

d. The using unit must provide range details required for operation, including the repair of targets. Each unit must leave the targets ready for use by the next unit. The target shed will be swept and kept clean and orderly.

e. Range Duties:

(1) Targets will be uniformly placed in appropriate storage facilities AFTER repairing them.

(2) Range boxes will be cleaned and neatly stacked.

(3) Brooms will be placed in the storage facility.

f. All range houses will be thoroughly cleaned and readied for the next using unit before leaving the range.

g. A unit officer will inspect the latrines, pits, firing points, quartering areas, and training areas to insure proper police of debris.

h. All expended brass will be policed from the area and taken with the unit.

3-16. AVIATION

a. HELIPADS:

(1) Camp Rilea has two (2)-designated helipads.

(2) The primary helipad (OR 15) is to be used for routine and VIP aviation operations. It is presently an improved mowed-grass area located south of the starships on Pacific Road vic 282073. The helipad is equipped with a lighted windsock northeast of the helipad for night landings.

(3) The alternate helipad (VIC 268107) is used for tactical landings and take-offs, troop movement, sling load training, landing of larger helicopters such as the CH46 and CH47s, and hot refueling. There is a windsock located on the southwest corner of the helipad.

b. LANDING GUIDELINES:

(1) Incoming and outgoing flights should approach and exit Camp Rilea boundaries at an altitude that will decrease noise impact on the civilian community. 500' AGL minimum altitude should be maintained.

(2) Flight paths along the beach housing area north and south of the Post should be avoided except in emergency situations. The area immediately east of the Post should be avoided if possible.

(3) Climbs and descents for takeoff and approaches should be accomplished over the Post from the north, west, and south if possible. These approach and exit paths are designed to reduce noise levels to civilian neighbors.

(4) Refer to Appendix F for approach and departure procedures.

c. GROUND PERSONNEL:

(1) When there is an established Operations Office at the heliport, all visitors will check with the operations Officer or NCO to receive a safety briefing (Range Operations Bldg. 7021).

(2) All vehicles will remain on the road encompassing the heliport. At no time will vehicles be driven onto the heliport, except for refueling.

(3) Vehicles will not drive under the approach path of landing aircraft. Stop until the aircraft has passed.

(4) Personnel greeting passengers arriving in aircraft will wait off of the heliport until the aircraft has landed. They will not approach the aircraft until signaled to do so by an aircrew member. Movement to and from the aircraft will be at the direction of the crew.

(5) NO SMOKING on the heliport at any time.

(6) The heliport is strictly for use of Military aircraft and support personnel. Unit exercises are not allowed on the heliport (unless specifically authorized by Range Operations).

d. RADIO FREQUENCY:

(1) Camp Rilea does NOT operate aviation net on a full time basis.

(2) The Range Operations Fire Desk (Bldg. 7021) is in operation when Ranges are in use on Camp Rilea. Air/ground communications operate via FM radio on frequency 40.90 MHz.

(3) Aircraft operating in Camp Rilea airspace must monitor the Astoria Regional Airport (KAST) Common Traffic Advisory Frequency (CTAF), 122.8 MHz.

e. U.S. COAST GUARD GROUP ASTORIA:

(1) The U.S. Coast Guard Air Station is located approximately 4.5 miles Northeast of Camp Rilea.

(2) The air station has emergency and refueling capabilities.

(3) The commercial telephone number of the U.S. Coast Guard Air Station is (503) 861-6211/6212.

f. WEATHER REPORTS:

(1) Internet weather reports are available upon request from Range Operations using www.aviationweather.gov.

(2) Astoria Regional Airport (KAST) ASOS can be reached at (503) 861-1371 or 135.375.

(3) The telephone number of the U.S. Coast Guard weather service is 1-800-642-3565.

(4) 7-day outlook weather reports will be posted at Range Operations.

(5) McMinnville Flight Service Station is the servicing FSS. They can be reached at 1-800-WX-BRIEF (1-800-992-7433) or direct at (503) 434-5508.

g. UNMANNED AERIAL SYSTEMS (UAS / Drones):

(1) Use of Military UAS is authorized in accordance with DSoD Policy Memorandum 15-002, Guidance for the Domestic Use of Unmanned Aircraft Systems; and FAA COA 2016-WSA-152, Operation of the RQ-11B Raven over Camp Rilea, OR.

(2) Private use of UAS and Military use of Civilian Off the Shelf (COTS) UAS is prohibited at Camp Rilea in accordance with 14 CFR § 99.7 – “Special Security Instructions” and DSoD Memorandum Dated 23 May 2018 regarding cybersecurity vulnerabilities of COTS UAS.

(3) Non-Oregon Units must request a Proper Use Memorandum from DSCINT (G2) at (503) 584-2827 NLT 30 days prior to use. Refer to the Oregon Training Command SUAS SOP dated 7 March 2018 for additional instructions.

3-17. ENVIRONMENTAL ISSUES

a. Compliance with environmental policies is strictly enforced.

b. Using Unit commanders or their representatives will receive an environmental brief at in-processing. It is the Unit Commander's responsibility for unit compliance of the regulations and policies set forth in this briefing.

c. Fuel Spills: Notify Range Control immediately. A fuel spill plan will be subsequently implemented.

d. Camp Rilea Logistics will do a drive through of each parking lot area outside of each starship for any spills as part of the clearing procedure prior to the unit leaving. Each spill identified will be taken care of by the using unit. All military vehicles, generators, and DRASH HVAC systems will have a drip pad or drip pan located underneath them while parked.

e. Hunting is prohibited on Camp Rilea, wildlife must be left alone.

Chapter 4

Logistics

4-1. GENERAL

a. Request for support: Troop Commanders may initiate direct coordination with the Post Schedulers (or representative) upon approval of the Request for Support (AGO Form 207 or RFMSS request). The Training Site Commander has final decision authority in any arbitration over facility or training area and range utilization.

(1) Pre-Annual Training Conferences: Units will identify requirements for Post/Camp/Station (PCS) property. This is routinely handled by telephone for weekend training and by on-site conferences for periods of Annual Training.

(2) Advance and Rear Detachments: Units will provide advance and rear detachment personnel for all periods of IDT and AT. Advance detachments should arrive no later than (NLT) 1300 hours of the Friday preceding a weekend training assembly, and NLT 1300 hours three days preceding the opening of an extended training period such as AT. Using units will determine the size of the advanced or rear detachment based upon their usage of post facilities. Rear detachments will not depart until all issued property has been inspected, cleared and Camp Rilea Clearance Checklist is initialed off by Post Supply personnel, and has been completed and submitted to Range Control (Bldg. 7021); phone (503) 836-4066 or DSN 355-4012.

(3) All personnel that will be issued buildings will set up an appointment time for the issue with the billeting office no less than three days in advance of their arrival date. Upon issue a clear time will be established to ensure personnel are available and to avoid conflict with other using units.

b. Property Accountability:

(1) DA Form 1687: Commanders and Supply Officers (S4) (or their designated representatives) are the only personnel who are authorized to sign for Camp Rilea PCS property and supplies. They may further hand receipt PCS property to units or individuals. These individuals must be on the Delegation of Authority Card (DA Form 1687), for Post Supply, and UTES. A copy of the approving officer's Assumption of Command orders must be turned in with the DA Form 1687.

(2) Delegation of Authority: (DA Form 1687) will be prepared IAW the current Supply Update and submitted to the Billeting, Supply, and Range Control, immediately upon arrival to identify those individuals authorized to sign for property. PCS property will not be issued until DA Form 1687 has been received and approved by Post Supply personnel.

c. Transportation:

(1) Camp Rilea accessibility: Camp Rilea is located in Oregon on US Highway 101 eight miles north of Seaside and 7 miles south of Astoria, and is readily accessible by highway.

(2) The Astoria Regional Airport (KAST): Approximately five (5) miles northeast of Camp Rilea, and is capable of receiving troops and equipment by C-130 aircraft (with prior arrangement). The nearest international airport is located at Portland, Oregon, approximately one hundred (100) miles east of Camp Rilea. The post DOES NOT have an approved fixed-wing airstrip. Helicopter access should be coordinated through Range Control.

(3) Sea Lift: Possible at the Port of Astoria, approximately ten (10) miles north of Camp Rilea.

d. Field Services: All tactical field service requirements, such as: laundry, clothing renovation and exchange, bakery, water supply, decontamination, field bathing capabilities, etc., must be provided by the using unit.

e. Sewer Service:

(1) The Camp Rilea sewer system services the entire garrison area.

(2) Chemical toilets and hand washing facilities are required for bivouac areas. Field latrines (slit trenches), garbage pits, pits for dumping field mess waste Gray or Black water are strictly prohibited. Disposal of gray water will be by either trailer or water trucks, which are available through Camp Rilea UTES.

4-2. POST SUPPLY

a. Hours of Operation: Normal duty hours are 0800-1630 Mon-Fri. and on drill weekends. Hours may be varied with prior coordination.

b. TISA: TISA Activities have been suspended at Camp Rilea. Food service should be coordinated through the Post Food Service Manager at (503) 836-4102.

c. Property Issue:

(1) Keys to building locks will be issued from the Post Billeting Office, Bldg. 7404. The using unit upon receipt of keys will assume security of buildings and their contents.

(2) Using units must report to Bldg. 7404 NLT 1500 hours on the day preceding the arrival of the main body of troops.

(3) Troop bedding: All personnel must furnish their own sleeping bag for weekend IDT training and to the maximum extent possible during extended training periods.

d. Hand Receipts: Locally produced hand receipts are available at Post Supply (Bldg. 7401) to expedite property issue.

(1) Turn-in and clearance instructions, including checklists for IDT periods, will be provided by the Billeting (or representative) at the time of issue. The unit commander will schedule a meeting of all supply representatives to finalize procedures, times, and assignment of Clearing Officers. This meeting will take place NLT three (3) days prior to departure. A Post Supply representative must be present at this meeting.

(2) Hand Receipts initiated at the time of issue will be cleared upon the turn-in of the property. Adjustment actions will be directed for any shortages. Shortages of

recoverable or non-expendable property will require retention of the Hand Receipt as any exhibit for the resulting investigation. Replacement in kind or initiated FLIPL is required within 30 days.

e. Headcount Sheet: Using units will complete Camp Rilea Form 31 (Headcount Sheet) and will submit in one copy to billeting office prior to departure.

f. Trash-Recycle Disposal:

(1) Parking in front of or near dumpsters is prohibited.

(2) Disposal of trash and garbage is accomplished by the State Shop. Dumpsters are placed and picked up on a scheduled basis by the vendor. Any problems related to garbage disposal will be referred to the State Shop.

(3) Garbage and trash must be placed INSIDE the dumpster units. The vendor WILL NOT pick up trash, boxes and so on, that are placed alongside the dumpster. Cardboard boxes must be flattened to gain maximum use of the dumpsters. Recycle containers for cardboard are located next to the trash dumpsters. Dumpsters located by billets are to be used for billet garbage only. Dumpster lids must be kept closed. Garbage carried in from the field will be placed in dumpsters. Location will be determined by Post Supply at the time of arrival.

g. Laundry Service: There is a facility available for issue that contains ten (10) washers and ten (10) dryers located in Bldg. 7228. The use of washers and dryers are free to the soldiers, using units, and any paying customer. Any extensive laundry service must be negotiated with commercial vendors in the local area. Washing of TA-50 and boots is prohibited. A key card is required for entry and available at the Billeting Office.

h. Weight Room: The weight room is located at Bldg. 7231. A key card is required for entry and available at the Billeting Office. All personnel using this building will clean up after themselves and not allow access to personnel without a key card. Any equipment will not be removed from the building without permission from the Billeting Office. Users must sign in and out in the log provided inside the entry.

i. Food Service: Using units must provide their own food service. Dining Facilities contain hot and cold water, a gas range, refrigerator, mixing machine, freezer, milk dispenser, grill, and steam tables. Utensils are available at Post Supply.

j. Installation Repair Service: Repair of real property and utilities will be performed by qualified Post Engineers (military or civilian) as requested by using units. Request for Work Order (Camp Rilea Form 9) will be completed and submitted to the State Maintenance Shops (Bldg. 7241) during week-days. The form will be submitted to Post Supply on weekends or off-duty hours.

k. Ammunition, Demolitions, and Pyrotechnics:

(1) Storage: Facilities for ammunition storage at Camp Rilea is limited. The Ammunition Supply Point (ASP) has four (4) separate 10 x 10 magazines. The ASP

facility has a loading and unloading dock. Refer to Paragraph 3-13 for field and temporary storage requirements.

(2) Security: The ASP is lighted, fenced, has a guard station, and is IDS protected.

(3) Handling: A copy of DD Form 581 and shipping manifest is required on arrival. Submit copies to the Post Ammunition Technician. Storage compatibility will be supervised by Post Supply (Bldg. 7401).

l. EOD: An Explosive Ordnance Disposal Team (EOD) is located at the Portland Air National Guard (PANG) Base, OR. They can be reached at (503) 335-4829 or (971) 404-7690. EOD assistance is not routinely available at Camp Rilea. Using units that intend to conduct extensive firing of weapons with a high rate of probability for dud rounds MUST arrange for EOD support from Range Control in advance.

m. Emergency Procurement: The USPFO for Oregon will be represented at the installation during Annual Training periods. All emergency requests will be routed through the USPFO representatives. The USPFO office is located in Post Supply (Bldg. 7401).

n. Hygiene Services:

(1) Chemical Latrines: Camp Rilea has no chemical latrines; however, AGO 207 provides a list of recommended vendors. It is the unit's responsibility to coordinate latrine requirements through local vendors. Units will accomplish placement of chemical latrines in conjunction with vendors as a part of range or training area preparation.

(2) Hand Washing Facilities: All units using chemical latrines MUST PROVIDE hand washing facilities at each latrine location to provide a safe and sanitary environment for the soldiers. Chemical latrine vendors will provide this service when requested.

(3) Sink Drains: Personnel working in Mess Halls will NEVER POUR GREASE DOWN SINK DRAINS. Use ONLY authorized waste grease containers.

4-3. BILLETING & LODGING

a. USE CATEGORIES:

(1) Authorized Users: The Billeting and Lodging Programs will not unfairly compete with local businesses by ensuring that only authorized personnel stay in these facilities.

(a) All DoD uniformed personnel, their family members, and guests.

(b) DoD, DA, or NGB Civilian/Contract Personnel, their family members, and guests.

(c) Retired Military Personnel (with valid ID), their family members, and guests.

(d) Service Academy/ROTC Cadets.

(e) State Military Department Personnel/Contractors.

- (f) Federal, Non-DoD Entities.
 - (g) Authorized Non-DoD Entities in accordance with DODI 1000.15, dated 24 October 2008.
 - (h) City, County, and State Entities, as approved by TAG or designee.
 - (i) Local Youth and Non-Profit Organizations, as approved by TAG or designee.
 - (j) Other Entities / Personnel, as approved by TAG or designee.
- (2) Official Users: Official Users will be charged Lodging Fees when using a Lodging Facility. These are DoD personnel in a temporary duty status that are:
- (a) On an official travel order.
 - (b) Performing inactive duty training (IDT) and arrive before or remain after for the convenience of the Government or reside outside the local commuting area.
 - (c) Listed on a unit annual training order.
 - (d) On written or verbal orders by their Unit Commander to remain at the temporary duty station.
 - (e). Supporting a mission/emergency requirement as determined by the Commander or designee.
- (3) Non-Official Users: Non-Official Users will be charged Identifiable Direct Costs (IDC) related to their stay, as well as a Lodging Fee if staying in a Lodging Facility. These are any individual who does not qualify as an official user as defined above, and chooses to stay in Billeting or Lodging for personal convenience.
- (4) Fees: The current fee schedule is available in Appendix B.
- b. RESERVATIONS:
- (1) Housing, supplies, and services at Camp Rilea are considered sufficient to accommodate 1,359 troops during any given period. Detailed planning should start as soon as training activities and dates have been confirmed by the Billeting Office or RFMSS Coordinator.
 - (2) See Appendix B for a complete listing of all housing available at Camp Rilea. Prices are subject to change. The telephone number for individual reservations is (503) 836-4052. Parties of ten or more are required to reserve through RFMSS or with an AGO 207.
 - (3) Some of our facilities are rank restricted. Sponsors must be physically present at the time of check-in.
- c. AFTER HOURS CHECK-IN:
- (1) Keys will be left at the Guard Shack at the main gate for pickup.
 - (2) Users must check in with billeting NLT 1000 the following day to complete check-in or reservations will be cancelled and you may lose your room.
- d. LODGING: Lodging facilities come with housekeeping services and amenities.
- (1) Koski Hall (Bldg.'s 7299/7300) has 72 rooms. This facility is available upon request through Post Billeting. Each Koski Hall room contains a twin or full size bed with

bedding, sink with linen and a bathroom, which is shared between two rooms. Suite rooms have a private bathroom. All rooms contain a television with cable TV and internet WI-FI.

(2) RV Park has ten (10) full hookup sites which include water, electric, and sewer, and eight (8) dry spaces. Internet access is available at Koski Hall with a day room key card. Use of the RV sites is limited to 14 days.

(3) Tent Sites are available with campfire rings. Three sites are available.

(4) Chateau sleeps ten people. There are four bedrooms, two downstairs and two upstairs. The two bedrooms downstairs have a queen bed in one room and a full bed in the other. The upstairs rooms have one room with three twin beds and one room with one full and one twin bed. Living room, dining room, kitchen, and two baths. Hardwood Floors throughout. Users must adhere to the VIP Housing Policy (See Appendix C). This is a rank restricted facility. It may only be reserved by users in the grade of O-6 and higher or E-9s who are the Senior Enlisted Advisor to the Land Component Commander, Air Component Commander, and TAG or their equivalents prior to the creation of the component commands (rated by a General officer).

(5) Cottage sleeps eight people. There are two bedrooms; each bedroom has one full and two twin beds. Living room and kitchen with two full baths. This is a rank restricted facility. It may only be reserved by users in the grade of E-8 and higher.

(6) Hilltop sleeps four people. One bedroom with a full bed and living room with a full hide-a-bed. Kitchen and one full bath. This is a rank restricted facility. It may only be reserved by users in the grade of O-4 or W-3 and higher.

(7) Cabins sleep four people. Two bedrooms, one bedroom has one queen bed and one bedroom has two twin beds. TV, DVD and VCR player. Small kitchen and one full bath. There are only two cabins on post.

e. BILLETING: Billeting facilities are not supported with housekeeping and do not include bedding or other amenities.

(1) Unit Quarters (Starship) consist of two story concrete barracks. Each building has 160 beds and contains mess and dining facilities, latrines, administrative offices, and supply room area. Five Starships have classrooms restricted to 160 persons per fire code. Each building has a physically separated bay and latrine to facilitate housing officers or female personnel. The barracks include beds, mattresses, and mattress covers. All include lockers.

(2) The Visiting Quarters (VQ) (Bldg. 7301) has a capacity for seven (7) persons. The VQ is used to house visitors on a short-term basis and is NOT available for issue to units. Each VQ room contains a bed, mattress, and mattress cover. A common bathroom is available down the hall. VQ-7 has a private bath.

(3) Four Person Facility Huts consist of four twin beds, toilet, shower, sink, refrigerator, and microwave. There are three of these huts. No bedding or linens provided, and they must be cleaned by the user prior to departure.

(4) Four Person Half Facility Huts consist of four twin beds, toilet, and sink. A main shower point is located at the top of the hill of all of these huts or the use the RV Park shower is allowed. No bedding or linens provided. These are the only location that pets are allowed with a \$50 refundable deposit. Exceptions may be made for service animals.

(5) Twenty Four Person Full Facility Duplexes consists of 12 bunks on each side with lockers. Each side has two sinks, toilets, and showers. No bedding or linens provided.

f. TURN-IN & CLEARANCE PROCEDURES:

(1) Instructions. Turn-in and clearance instructions, including checklists for IDT periods, will be provided by the Billeting Office at the time of issue. The unit commander will schedule a meeting of all supply representatives to finalize procedures, times, and assignment of Clearing Officers. This meeting will take place NLT three (3) days prior to departure. A Post Supply representative will attend this meeting.

(2) Scheduling. Clearance personnel and scheduled clearance times on the day of departure are critical. Property and buildings that are not properly prepared and ready for clearance at the designated time may be by-passed and will fall to the bottom of the clearance schedule.

(3) Inventory and Inspection. Physical inventory and building inspection by Billeting personnel will not be attempted until the main body of troops has cleared the building with one or two representatives from the unit.

(4) Details. It is essential that a detail (approximately 10% of assigned strength) from each departing battalion-sized unit, be left under the control of the unit Clearing Officer (or S4) until final clearance is granted. Improperly prepared areas may require the return of unit personnel to complete the task.

(5) Clearances. Buildings will be cleared using locally developed inspection checklists. These checklists are supplied by the Billeting Office, and will be utilized by the assigned Post Clearing Officer/NCO. Units may request copies in advance to assist them in proper preparation for clearance. Buildings will be locked and the keys turned over to the Billeting personnel once they are inspected. Parking lots will be inspected for spills and leaks from vehicles. It is the unit's responsibility to clean these areas should a spill or leak occur in accordance with EPOC and HAZMAT instruction.

(6) Damage. Damage to real and installed property, other than fair wear-and-tear will be assessed to the using unit Commander.

(7) Hand Receipts. HR's initiated at the time of issue will be cleared upon the turn-in of the property. Adjustment actions will be directed for any shortages. Shortages of recoverable or non-expendable property will require retention of the Hand Receipt as an exhibit for the resulting investigation. Replacement in kind or an initiated FLIPL is required within 30 days.

4-4. UNIT TRAINING EQUIPMENT SITE (UTES) package consists of one Infantry Company TOE plus a support package. Oregon Circular 350-47 governs the issue of equipment and provide a list in LIN numbers sequence of equipment available for issue to visiting units. NGB Circular 750-2 provides the Rules and Regulations for the operation of the UTES. Request for equipment draw for ORNG Annual Training should arrive at the UTES at least 90 days prior to unit arrival and request for IDT usage should arrive at least 30 days prior to unit arrival. Direct coordination can be made by contacting the UTES Foreman at (503) 836-4151/4152 or DSN 355-3942.

a. Petroleum, Oil, and Lubricants (POL):

(1) Camp Rilea POL dispensing facilities consist of storage and dispensing for JP8 (13,000 gal). Fuel site is capitalized and accessed anytime with DESC issued key.

(2) Oils, greases, and solvents must be brought from home station.

(3) Non-ORARNG units will arrange for POL (if required) in advance with USPFO for Oregon at (503) 584-3946 or DSN 355-3946.

(4) POL procurement procedures for extended training periods will be established by USPFO representatives during preplanning sessions.

b. Repair Parts: Units are responsible for providing their own stockage of repair parts, assemblies, sub-assemblies, and items required for maintenance support of their organization. ORARNG units may requisition repair parts through their designated FMS shop for Annual Training.

c. Maintenance:

(1) The UTES at Camp Rilea is a maintenance facility for units on post. UTES will provide maintenance assistance to any using unit.

d. HAZMAT / MSDS: MSDS for common military hazardous materials are available upon request from UTES. All HAZMAT disposal will be coordinated with the UTES Foreman for turn-in.

e. Washrack: Units operating tactical vehicles in the training areas must utilize the washrack prior to leaving post. No soap may be used to wash vehicles in this facility. Arrangements for use of the washrack must be made with the UTES Foreman.
