

What is Low-Level Light Therapy?

Originally researched and developed by NASA, low-level light therapy, also known as photobiostimulation, is the application of light energy to the body to obtain therapeutic benefits. It produces a natural photobiochemical reaction similar to the process of plant photosynthesis, and has a wide range of beneficial applications across many medical fields, including the treatment of skin, muscle, joint and pain conditions.

How does Light Therapy work?

Celluma provides compromised cells with the energy to regain and restore vitality naturally. Its powerful, deeply penetrating wavelengths are absorbed by photoacceptors in the mitochondria. This process increases the production of adenosine triphosphate (ATP) — the fuel that drives all cells. This boost of cellular energy results in a cascade of metabolic events leading to an increase in micro-circulation, tissue repair, and a decrease in inflammation and pain.

The Celluma Series

- Safe
- Effective
- Drug-free
- Non-invasive
- Perfect for the whole family**

celluma®

Light Therapy

ACNE | SKIN REJUVENATION | PAIN
WOUND HEALING*

- Treats skin, muscle, joint & pain conditions
- Proven NASA researched technology
- Whole body wellness system
- Use anywhere on the body
- Unique patented design

CLINICALLY PROVEN WAVELENGTHS

BLUE

RED

NEAR-INFRARED

Celluma can be used by the whole family** and is FDA-cleared to treat:

- Acne
- Wrinkles
- Arthritic pain
- Muscle Spasm
- Muscles & joint pain
- Muscle tissue tension
- Decrease inflammation
- Increase micro-circulation

Safe. Proven. Effective.

What does Celluma LED treat?

Celluma Light Therapy has been shown to effectively treat a wide variety of skin and musculoskeletal conditions. Celluma is FDA-cleared for wrinkles and acne as well as arthritic pain, muscle and joint pain, and muscle and joint stiffness. In addition, Celluma has clearances for muscle tissue tension and spasm, and is proven to decrease inflammation and increase micro-circulation.

How do I achieve Best Results with Celluma?

- Use Celluma on clean, dry skin.
- Use any Celluma device 2-3 times weekly for 30 minutes.
- Place your Celluma as close to the treatment area as possible.

Celluma also has medical CE marks for dermal wound healing and diabetic ulcers.

Always consult with your physician before making a change to your wellness routine.

"I love my Celluma!"

I ordered my LED therapy panel after a severe injury left me bed-ridden for months. I've noticed an increase in my progress and pain management since using it."

—Jessie Ennis, Actor (Veep) & Director, Los Angeles, CA

Protocol: 3 times per week for 4 weeks
After photo shows sustained results 12 weeks after final Celluma treatment.
