

Youth Involvement

Youth involvement in the town centre is a big challenge, because teens are more interested in nightlife, gaming, or things which are currently not provided for in the town centre. Young people are the future of our town, they need to feel they have a place.

A few ideas we have include: a beach festival, bringing back ComiCon (which in the past has been a huge success) a local talent show, gaming competitions and outdoor movie nights.

Below are two pictures, on the left is one which we could make a reality in Burnham and on the right is what we have done before. Feel free to give us ideas on what you would want in the town and town centre.
