

K-9 Vaccines

- Rabies – 6 month and older.
- Bordetella (Kennel Cough) – Required for all ages.
 - This is not included in the Spec-9 or any other combo vaccines
- Yearly Booster for Parvo/Distemper – Required for all ages.

Commonly Called:

- DHLPP
- DAPPV + L4
- DA2PP (+LEPTO)
- Spec-6 through 10

Requirements for At-Home Vaccines

- Receipt with date for proof of purchase.
- Photo of empty bottles with the vaccine sticker – showing what type of vaccine you have administered.
- Vaccines record with the date the vaccines were administered.

Not acceptable proof of at-home vaccinations is a copy of the lot expiration. This sticker with the expiration date is NOT the expiration date of the vaccine once given to your animal. This is lot expiration, letting customers know when the vaccine is no longer viable to administrator to your pet.
