SSG Aligned LMS

Hypeschools provides you with

Control

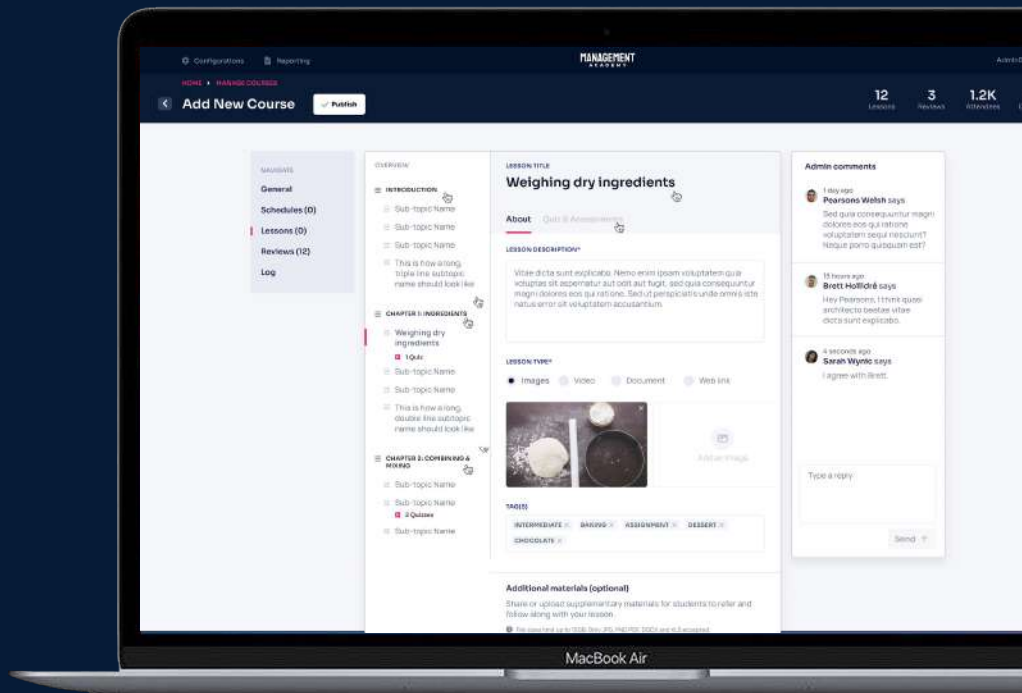

Fully control your enrolments and SSG assessments to eliminate risk of suspension.

- Direct SFC deduction for cashless selling and lowered attrition
- Customize enrollment flow with different application fees and payment methods
- Determine a compulsory enrolment checklist
- SSG-aligned assessment environment & report generation

Features of Hypeschools, the SSG Aligned LMS

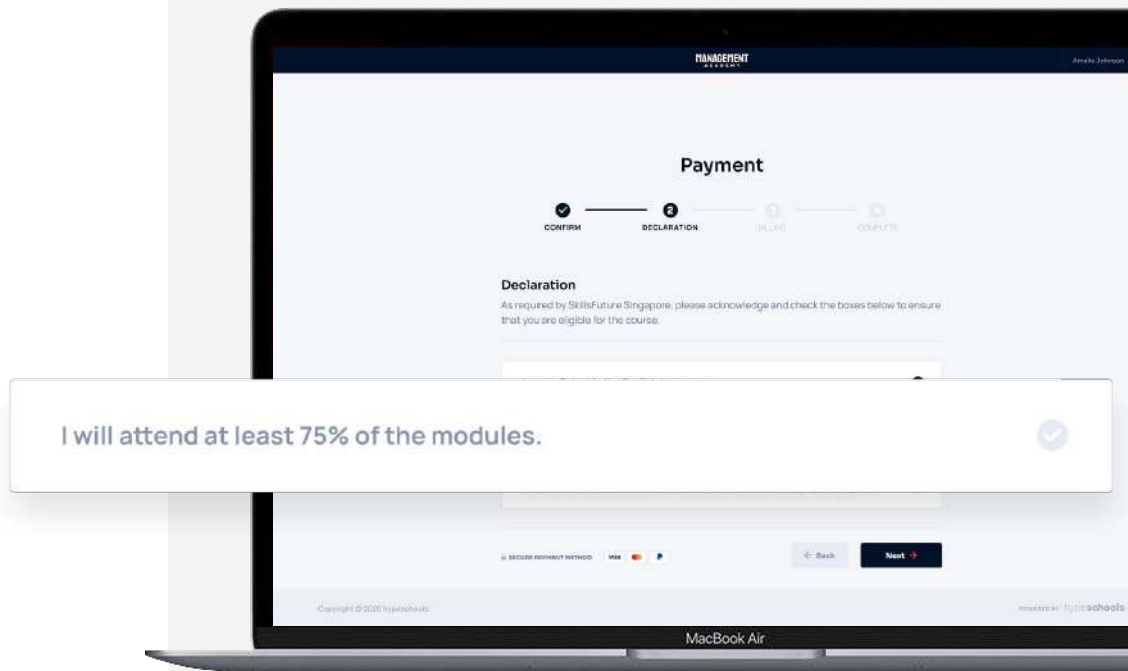

Accept SFC Enrolments with ease - Cut down SFC claiming time by 90%

Customize your student enrollment declarations and payment methods including SFC deduction. Then set up class schedules and application fees. Students can just enter their NRIC and make their claims, even for complex course bundles.

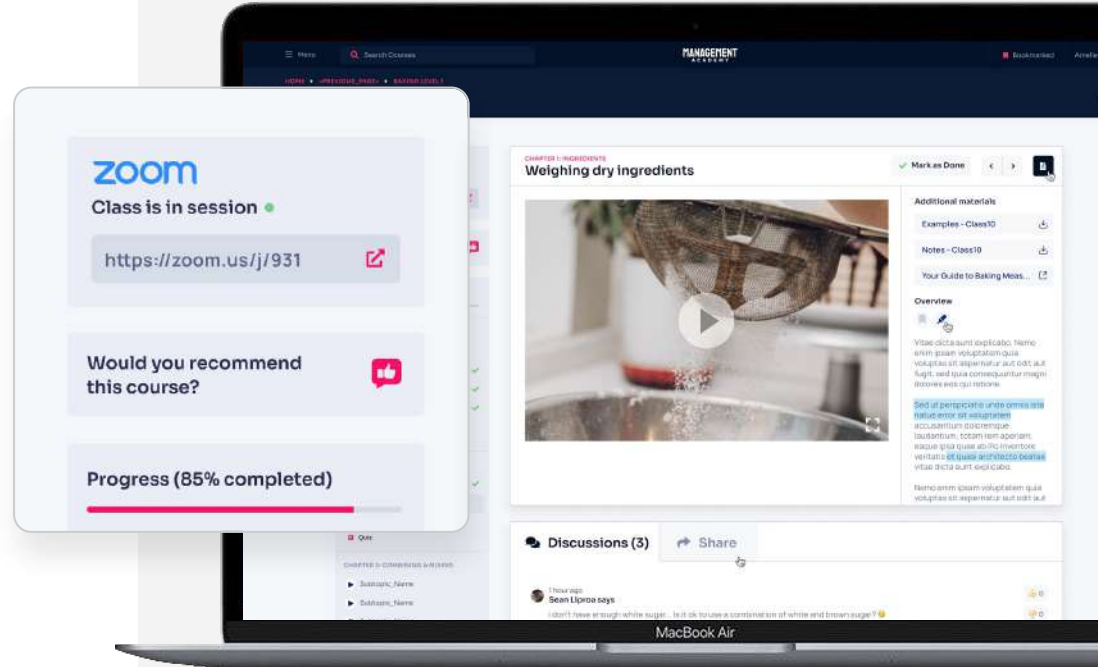

Customised declaration to control your signup flow

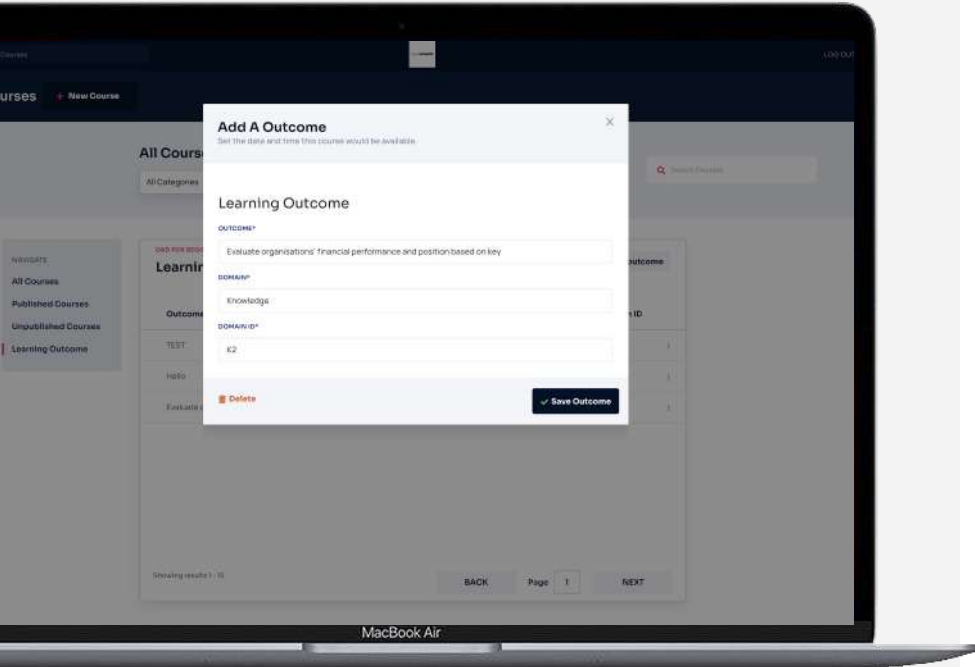

You can set up declarations and collect required information from your participants to ensure that they are eligible for the course and keep records for auditing purposes.

Zoom Integrated Online / Virtual Learning

If you need to conduct lessons virtually, you can generate unique Zoom links so that you don't have to manually organize your classes.

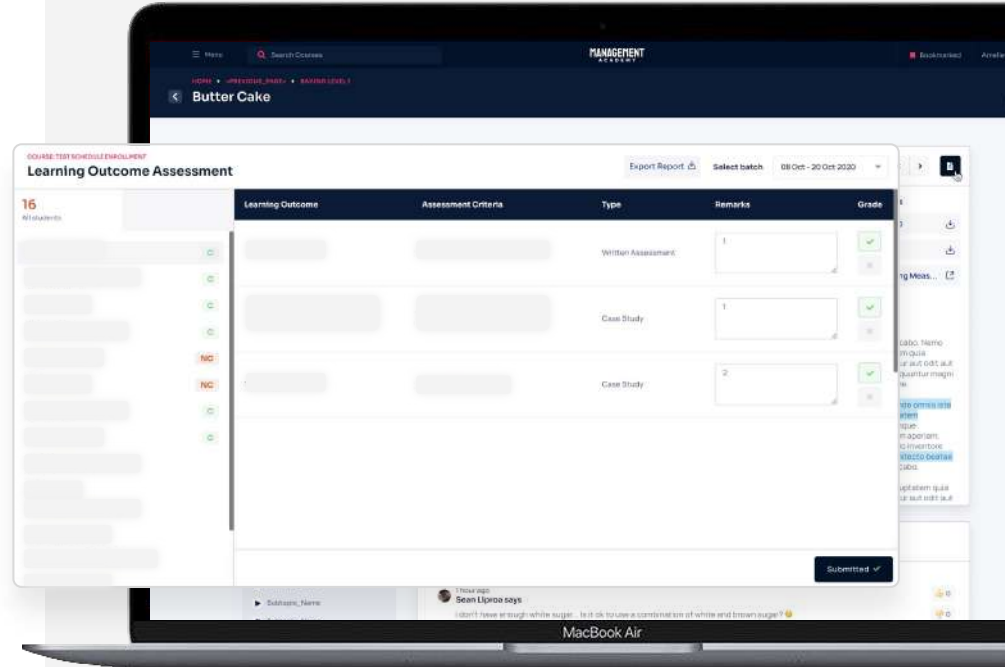

SSG-aligned Assessment Environment

Conduct assessments as required by SSG so that your course assessments get approved faster.

SSG-aligned Report Generation

Your Learning Outcome reports are compatible with SSG requirements. Save time on consolidating and editing reporting formats and cut down on your approval times.

Case Study - How we helped a SSG ATO reduce ¼ of their course man hour requirements

We helped this ATO remove manual SSG enrollment, student assessment and SSG reporting processes, saving 7 man days for each class' admin work.

This enabled them to speed up time to market for each class and maintain a steady revenue stream for their course.
