

## ***Supporting Our Community So We Can Become Bigger & Better Than Ever***

COVID-19 has brought some challenging times for everyone and we know our colleagues in the restaurant industry have taken big losses. Now that you are reopening, HCS is here to help make these new, unique challenges, as seamless as possible, while still providing our customers with stellar service and support.

### ***What's New:***

#### **Contactless Ordering**

Customers can order online through our online ordering system which communicates seamlessly with the POS printers. The customer will enter the number at their table and submit their order. If you chose to still have servers come and take the orders, that is okay.

*We have a solution for that!*

#### **Contactless Payment**

To help prevent the spread of COVID-19, contactless payments will limit the number of interactions between the servers and customers. Customers will be able to scan their receipt with their mobile phone, pull up their total and pay.

*We have a solution for that!*

#### **Online Ordering**

To help our community during this difficult time, we are waiving the startup fees and the monthly cost for our online ordering system! We will program your menu, same as we would with your POS.

*We have a solution for that!*
