## **Auto-Backup**

**The built-in Auto-Backup feature will send your most recent data to a selected POS station. In the event of a primary fileserver issue, it will be turned into your temporary fileserver.**

**Every few minutes, your data will be sent to the backup fileserver POS station. Also, overnight, your entire POS system will be sent to that selected POS station as well.**

**In the unlikely event you have a fileserver issue, HCS will log in and turn your POS station into your fileserver. Yes, it will still be able to be a POS too.**

**When everything returns to normal, HCS will transfer your data back to your new primary fileserver.**

**Every Few  
Minutes:**

- **Menu Items**
- **Menu Screens**
- **Item Files**
- **Employee Data**
- **Revenue Centers**
- **Time frames**
- **Price Specials**
- **Pay Periods**
- **Tax Table**
- **Device Layout**

**Plus,  
Your data is never  
stored in the cloud!!**
