

**VersiPay is our own payment processor that provides full payment processing directly through VersiPOS. By using VersiPay, you will have a single point of contact for your POS and payment processing!**

**VersiPay has all of the features you've come to expect from a payment processor including: next-day funding, acceptance of all major credit card types, and full PCI compliance.**

**Because we are your payment processor, your fees offset the costs of software development. In doing that, you will receive software updates and upgrades as they are developed.**

**VersiPay**

## **Surcharge**

***As the margins for profitability thin, you look at all areas to cut costs.***

***Removing the financial burden of ever-changing credit card fees allows you to focus on what matters:***

***Managing Your Restaurant***

***Your customers will pay a preset and transparent rate (signs on the door, at the POS and on the guest check) for the convenience of using a credit card.***

***The daily reports clearly define the surcharge collected for easy reconciliation.***

***HCS and VersiPay follow the strict guidelines mandated by the card brands. We work with you to make sure the process is a transparent process for you and your customers.***

THE "COMPLETE SOLUTION"  
FOR ALL OF YOUR  
POINT OF SALE NEEDS

# Contactless Payment

- **Limited contact between customers and employees**
- **Speed up table turns by having customers pay at the table with tablets**
- **Surveys at the bottom of the QR code payment give owners real-time customer feedback**
- **Integrated notification of POS payment (listen for the "CHA-CHING" at the register)**
- **Scan QR code from the guest check OR from the tablet screen at the table**

COVID-19 has introduced some challenging obstacles for the restaurant industry. Our job is to help you not only cope with these changes, but continue to grow bigger and better than ever.
