How We Come To This Planet As Toys

Tooky Toy is a place to find creative alternatives to the wooden toys you love! Our creative designers, are either young fathers or young mothers, integrating their daily working lives with the fun of playing with their beloved children. They take ordinary everyday objects and turn them into timeless and durable wooden toys.

Each toy from Tooky is made of wood from sustainable forests. They are brought to this world as ingenious arts, through skilled workers ever since their ancestors did the same nearly 80 years ago. Logs dry out in the sunshine in forest farm, with barks trimmed and buried into the soil and become natural source for plants. They are delivered to the toy plants, cut into pieces, sanded into various shapes of semi-products, while their sawdust is accumulated by machinery and transported to the next destination where it becomes material of compound wooden floor.

Workers paint wooden toys by hand with water-based dyes. Parts may be assembled, some in magical mechanical structure you could never image, some with a little non-formaldehyde glue. These are colorful masterpieces. All our toys are eco-friendly manufactured. They are transported to all corners of our planet, they grow with your children, encourage imagination, incorporate real-life skills, and build fine neuromotor skills.

We will continue with our dream to bring the best wooden toys to our children's world, a world of magic and imagination.
