Here's the deal with the political stuff. The Democratic Party is really pushing the defund the police movement. Riley and Elisabeth work for Progressive Turnout Project (PTP) and they work for Brianna Westbrook. Brianna is a very extreme leftist who supports their activism and was even proud of them for getting arrested. Brianna isn't organizing any of this, but she's enabling it and giving them the resources to target different elected officials, such as Allister Adel, Governor Ducey, and Sheriff Penzone.

They're being backed and supported by a number of Democratic candidates at the municipal, county, and state
