

INTRODUCING

Nuba Sun-Dried Hibiscus Flowers Wholesale

It's believed that hibiscus tea was revered for its medicinal properties since the ancient times of Egypt. Hibiscus has been enjoyed across many cultures for centuries due to its great taste and numerous health benefits. Our hibiscus flowers are grown on the banks of the Nile individually picked and dried in the Egyptian sun with the highest standards with quality control, which makes us a brand to trust. We foster special relationships with our farmers which allows for sustainable sourcing and intricate quality monitoring. As an organic, natural and health-conscious brand, we take pride in our ethical practices and social responsibilities. We are committed to giving back a percentage of profits to our farmers and their communities.

Hand Picked Whole Flowers

Hand Picked Whole Petals

WHAT MAKE OUR HIBISCUS FLOWERS SO SPECIAL

- Whole Hibiscus flower has more flavor, longer shelf-life, and fewer impurities
- The larger the leaf, the greater its surface area for steeping. The longer it takes to steep, the more complex and nuanced the infusion.
- Our whole-flower hibiscus is 100% organic and chemical-free. It grows on the banks of the Nile in southern Egypt in an area called Nuba
- Our hibiscus flowers when steeped makes rich purple tea that is a very fragrant, and a source of antioxidants, vitamins and minerals, which can be enjoyed hot or cold.
- We buy annual harvest directly from quality driven small-scale producers in Egypt.
