These before and after photographs are of a patient treated with Cynosure's PicoSure device, not the PicoSure Pro device advertised herein. The PicoSure Pro device has the same parameters as the PicoSure device and so while individual results vary, similar results are expected.

Like all medical procedures, not all patients are suitable for the treatment. Talk to your medical provider about the risks and benefits of this procedure. A qualified practitioner is solely responsible for evaluating each subject's suitability to undergo treatment and for informing those being treated about any risks involved with the treatment, pre-and postoperative care, and any other relevant information. Individual results may vary and are not guaranteed.

downtime

How It Works

The PicoSure Pro technology delivers energy so rapidly (In trillionths of a second) that tiny particles vibrate and shatter pigment without heat and burning surrounding tissue.

It stimulates your skin's natural refreshing processes to create brighter, younger-looking skin in just 10-minutes!

100% patient
satisfaction/

(as reported by RealSelf, April 2021)
