

Three Kinds of People in the world :
(when it comes to money)

- Liquidity
- Safety
- Guaranteed Growth
- Tax Protected
- Stay on the Wealth Curve

1. Borrower-Works to Spend (Pay Up)

-Borrows from lender at market rates, using future earning potential as collateral.

-Makes payments to the lender at the market rates.

2. Cash Buyer-Saves to avoid paying interest (Give Up)

-Borrows from self, falls off the wealth curve and resets compounding.

-Makes payments to self to get back to where they were before the purchase, giving up the interest their money would have earned.... lost opportunity cost.

3. Wealth Creator-Saves and uses OPM to maximize efficiency (Build Up)

-Borrows from lender at negotiated rates, using own money as collateral and while continuing to earn uninterrupted compounding.

-Makes payments to chosen lender, on your own schedule. Keeping you on the Wealth Curve and allows you to maximize the benefits of your Private Family Bank.

The Wealth Curve

Fall Off of the Wealth Curve
