hey!  
it's karina

thank you so much for considering  
me to capture your wedding day!

ever since I was little I've been  
passionate about telling emotional  
stories + capturing everyday  
moments in a cinematic way

I want to keep you engaged + in the  
moment, so you can leave the  
memory preserving to me

I'm here to help loved ones capture  
memories to feel years later + to  
make sure you can relive your  
special day again + again!

by 2025 I'll have experience with  
over 85 weddings as both a  
photographer + videographer

## guide contents

- about me 2 - 3
- wedding photography 4 - 8
- wedding videography 9 - 11
- photo + video combo 12
- more information 13

# my niches

## being both a photographer + a videographer

knowing both sides of my camera has given me a better understanding of storytelling, more confidence in creating + a wider skill set

as a photographer, I look for art in everything  
as a videographer, I look for movement that makes me feel something

understanding how the details make up the day, making sure those little pieces of love + large contributions of effort are captured

the art of noticing + anticipating moments for those emotional reactions + genuine candids

I promise to go above + beyond for you! we will be together the entire day + I genuinely want you to feel your best + make sure things run as smooth as possible!

it's not in the traditional "job description" as a videographer or photographer to also help to help talk a bridesmaid down from being anxious to give a speech, or to help track down the number of a bartender who hasn't shown up on time, or to make sure your dad has his glasses he left in a limo, but these are the little things I naturally want to help with **because I'll be emotionally invested in these moment for you too**

# wedding photography

photos become our legacy

it's how we reminisce, share stories  
+ feel nostalgic

I love a mix of emotional moments,  
real + raw memories, while also getting  
those pinterest board shots (ps please  
invite me to your wedding board!)

## the good stuff that gets me in my feels:

my love for timeless black + white images  
you'll receive duplicates of my favourites in both colour + black + white

if you love vintage style photography - I love to add moments of a filmy look

bringing along my polaroid camera to snap instant photos throughout your day

being there to capture raw moments for years to come

# wedding photography packages

## package 1 - 10 hours coverage

- complimentary engagement session
- complimentary polaroids taken throughout day
- online private gallery (expect 80-100 final photos per hour)
- timeline planning
- USB of all photos

- complimentary polaroids taken throughout day
- online private gallery (expect 80-100 final photos per hour)
- timeline planning
- USB of all photos

investment - \$2,999 + tax

# additional photo add ons

looking to add additional photo services to capture the emotions + memories from the events leading up to the wedding?

like an engagement party, wedding shower, rehearsal dinner  
+ so forth, starting at \$300 per hour

**\*these are great gifts to suggest to those who want to get you something not on your registry! \***

add ons to wedding packages

- additional hours of shooting on wedding day – dependent on your package
- add a second shooter \$125/hr – minimum 3 hours

# wedding videography

**video captures emotion  
more than anything**

hearing someone's voice + laughter,  
seeing their mannerisms + how they  
interact or react, is something you  
can't fully grasp through a photo

**if you're considering adding video to  
your wedding, think about what  
moments from your wedding would  
be the most important to you?**

for some, it's the emotions from a first look with their friends, family +  
their spouse. for others, it's the sentimental vows + family reactions.  
whether it's the laughter, hugs or emotions you could never redo, or  
even the epic party, I'll make sure the video is tailored to you!

what feels, moments + people are going to be important to you in  
1 year, 5 years, 25 years?

when you sit down to watch this video in 50 years, what memories will  
you want to see captured in a cinematic way?

these are the moment I will preserve for you!

# wedding videography packages
