

Photography Photo Assignment – Elements of Art

**Composition is the arrangement of visual elements within the frame of the camera's viewfinder.*

Your assignment is to capture 3 high quality photographs that compositionally represent a particular Element of Art.

Each photograph should represent a different Element

Each photograph should be edited. Adjust your levels for best exposure.

Each photograph file should be titled with the correct Element and your last name for easy identification.

I recommend shooting more photographs than you think you'll need. It's better to have options.

Elements of Art	Principles of Design
Line	Balance
Shape and Form	Unity
Value	Variety
Color	Movement and Rhythm
Space	Emphasis
Texture	Proportion
	Pattern
