

22-02-2017

Dear Shareholder,

Steriwave Hungary Ltd (part of Steriwave-Global-Vectrance Group) has signed a JV with the Italian Romanian group known as Ecohornet, Ecoremover Technologie Ambientale Srl “Ecoremover”.

<http://ecohornet.ro>

The parties will merge technologies and enter into an industrial partnership. The Italian-Romanian companies and Steriwave Hungary Ltd have agreed to have Steriwave Hungary Ltd as the mother vehicle for the merged interests.

In consideration of the exclusive use of the Italian-Romanian technological knowhow to Steriwave and international JV industrial projects, Ecoremover were allotted 40% of the shares in Steriwave Hungary Ltd and the exclusive rights to market and sell Steriwave technologies and industrial projects for Steriwave. The remaining 60 % shares will be retained by the present shareholders.

Steriwave Hungary Ltd and Global & partners shares in Kleangas Group now “Cali Pharms Inc”, will be removed at a later stage by the partners and placed in a new vehicle for the partners.

The Group objectives are to promote, sell and build waste treatment plants with co-gas generators using Ecohornet engineering design, and Steriwave industrial microwave units for the following: <https://www.youtube.com/watch?v=hY9i9atg4GE>

The newly formed group, will be promoted by Ecoremover and Lucas Graphic Design of Italy.

Vectrance will be supplying the logistics and project management to the JV Group, plus engineers and other technical personnel when required. The group is targeting to build, supply and manage for its clients, up to 10 Industrial plants per year.

Sincerely,

The Management
