<p>Interpretations</p>	<p>Approved Rulings (A.R.) appearing in the Rule book are official decisions of the NCAA. The NCAA secretary/rules editor can be contacted for interpretations.</p>	<p>Play Rulings in the Rules book are interpretations approved by the NFHS Soccer Rules Committee. Member state associations of the NFHS independently make decisions regarding compliance with or modifications of the playing rules for the student athletes in their respective states. The Rules describe 3 systems of mechanics that may be used; the Dual Officiating System, The Diagonal System of Control (DSC) and the Double-Dual System.</p>	<p>Decisions of the Int'l. F.A. Board are official interpretations. Additional Interpretations in the U.S. can be obtained initially through the U.S. Soccer Referee Department or the State Director of Instruction (SDI). The IFAB Laws of the Game Book has been updated for 2023-24 as of July 1.. The Diagonal System of Control (DSC) is described in other IFAB and USSF publications.</p>

Footnote: DOGSO

IFAB Law 12 regarding DOGSO: In IFAB Laws of the Game, if the offense occurs inside the penalty area a penalty kick is awarded. A caution is awarded if the foul was an attempt to play the ball. It is still a penalty kick and a red card for handling, holding, pushing, pulling or violent conduct and serious foul challenges. If direct free kick offense occurs outside of the penalty area, and denies an obvious goal, a red card is given. This is also in effect for NCAA and NFHS. Note that in NCAA DOGSO outside of the penalty area must be a direct free kick foul, whereas in IFAB and NFHS any free kick offense.

Footnote: Free Kicks – In IFAB, NCAA and NFHS. Laws, attacking team must be at least 1 yard or 1 meter away from the defensive wall until the ball is in play. “Wall” is defined as 3 or more defensive players. Attacking player cannot be in such a wall and if attacking player is less than 1 yard from wall, an IFK is given.

Footnote: IFAB Offside Law 11 concerning interpretation of “INTERFERING” and “GAINING AN ADVANTAGE”.

“Interfering with an Opponent” means preventing an opponent from playing or being able to play the ball by clearly obstructing the opponent’s line of vision or movement for challenging an opponent for the ball.

“Gaining an Advantage” by being in an offside position means playing a ball that (1) *rebounds or is deflected to*

him/her off the goal post, crossbar or an opponent; (2) that *rebounds or is deflected* to him/her from a deliberate save by an opponent; (3) receiving the ball from an opponent who *deliberately* plays the ball such as a miskick or misdirected header (except for a deliberate save), is not considered to have gained an advantage and is not offside.

Footnote: IFAB Law 11 Offside – Deliberate Play and Deflection Explanation

(Same interpretation applies in NCAA and NFHS)

A player in an offside position receiving the ball from an opponent who deliberately played the ball, including by deliberate handball, is not considered to have gained an advantage, unless it was a deliberate save by any opponent.*

**‘Deliberate play’ (excluding deliberate handball) is when a player has control of the ball with the possibility of:*

- *passing the ball to a team-mate.*
- *gaining possession of the ball; or*
- *clearing the ball (e.g. by kicking or heading it)*

If the pass, attempt to gain possession or clearance by the player in control of the ball is inaccurate or unsuccessful, this does not negate the fact that the player ‘deliberately played’ the ball.

The following criteria should be used, as appropriate, as indicators that a player was in control of the ball and, as a result, can be considered to have ‘deliberately played’ the ball:

- *The ball travelled from distance and the player had a clear view of it*
- *The ball was not moving quickly*
- *The direction of the ball was not unexpected*
- *The player had time to coordinate their body movement, i.e. it was not a case of instinctive stretching or jumping, or a movement that achieved limited contact/control*
- *A ball moving on the ground is easier to play than a ball in the air*

A ‘save’ is when a player stops, or attempts to stop, a ball which is going into or very close to the goal with any part of the body except the hands/arms (unless the goalkeeper within the penalty area).

In situations where:

A player moving from, or standing in, an offside position is in the way of an opponent and interferes with the movement of the opponent towards the ball, this is an offside offence if it impacts on the ability of the opponent to play or challenge for the ball; if the player moves into the way of an opponent and impedes the opponent’s progress (e.g. blocks the opponent), the offence should be penalized under Law 12

A player in an offside position is moving towards the ball with the intention of playing the ball and is fouled before playing or attempting to play the ball, or challenging an opponent for the ball, the foul is penalized as it has occurred before the offside offence

An offence is committed against a player in an offside position who is already playing or attempting to play the ball, or challenging an opponent for the ball, the offside offence is penalized as it has occurred before the foul challenge
